

Public Workshop One - Held on October 22, 2019 from 6:00pm - 8:00pm at the OC Sailing and Event Center

Attendance

Number of participants signed in: 87
Meeting head count: 93
Number of zip codes represented: 13

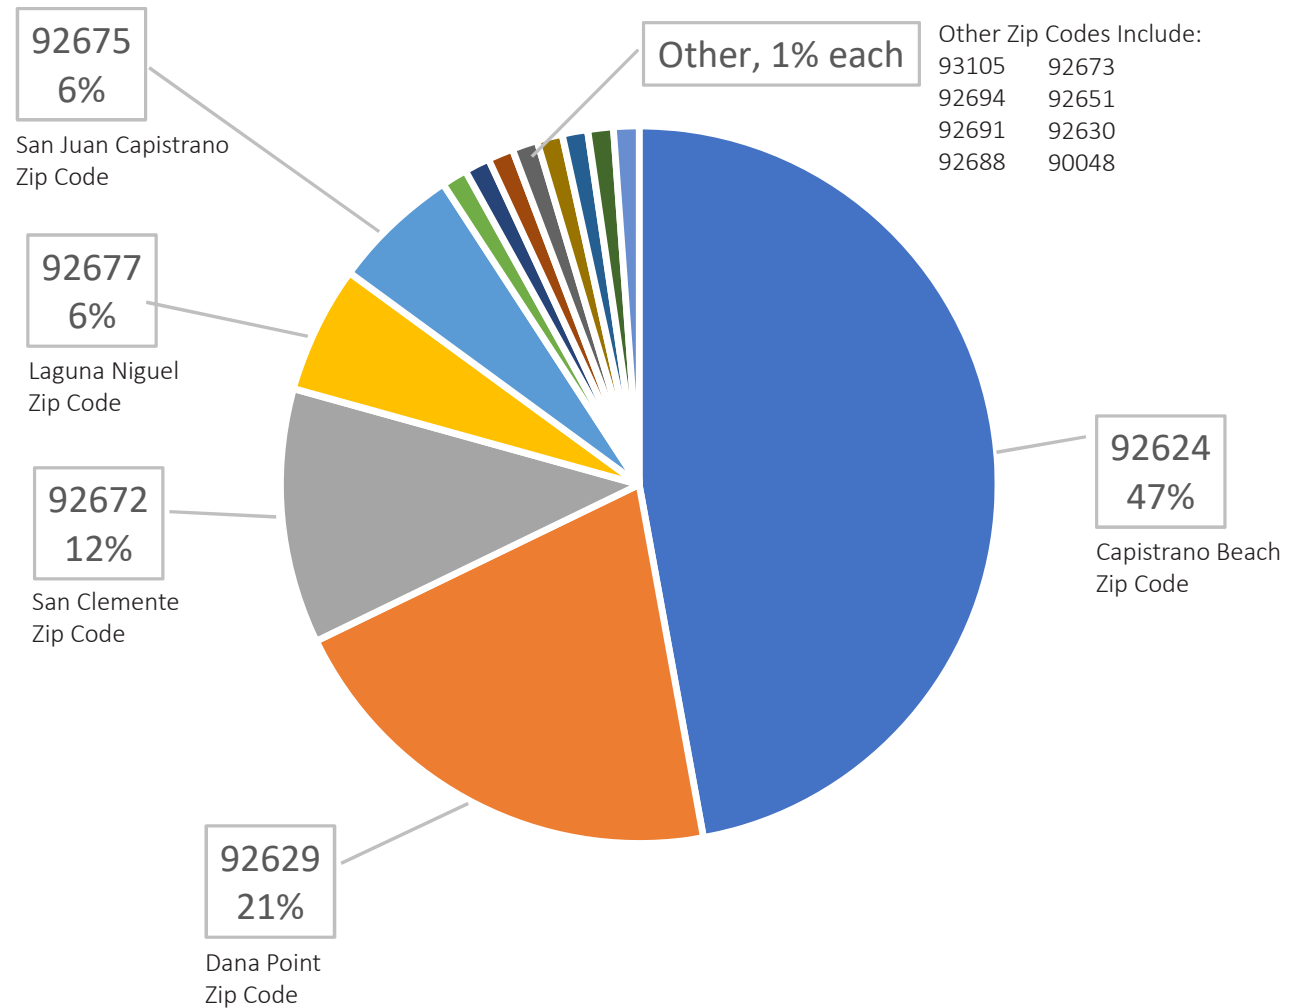

Workshop Description

The project team presented information about the Capistrano Beach Master Plan for the first half of the meeting. The second hour of the meeting was dedicated to group work. Attendees worked in groups of approximately 8 people to share information related to three topics:

1. What they most enjoy about Capistrano Beach;
2. What their concerns are;
3. What changes and improvements they'd like to see, in regards to both beach hazards and amenities.

Groups addressed these topics and then reported their responses to the third topic to the large group of attendees.

The meeting concluded with a prioritization exercise where attendees prioritized strategies for addressing coastal hazards and the types of amenities that they'd like to see at Capistrano Beach.

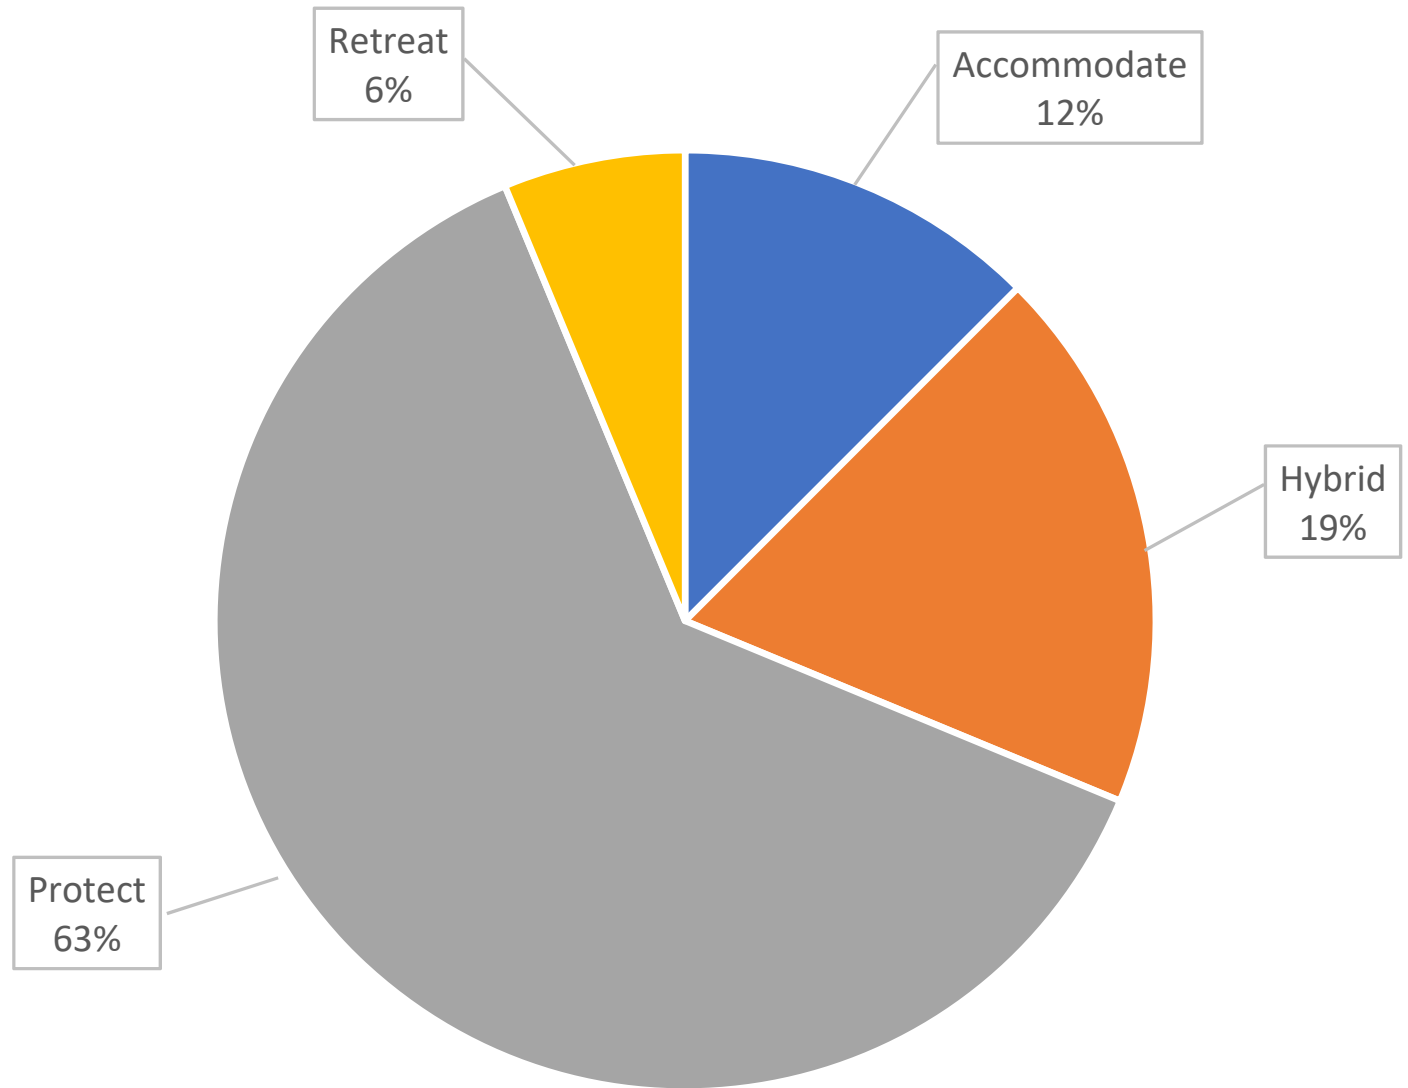

Question 3a. How do you think coastal hazards should be addressed?

Group Report Back

Activity Description:

Each table reported their top responses to this question to the larger group. Responses were recorded on large sheets of paper.

Question 3b. What amenities would you like to see?

Group Report Back

Activity Description:

Each table reported their top three to five responses to this question to the larger group. Responses were recorded on large sheets of paper.
