

**County of Orange, Health Care Agency**  
**Environmental Health**  
**Body Art Program**  
1241 E Dyer Rd, Santa Ana, CA 92705-5611 (714) 433-6000

**Safe Body Art Act**  
**Bloodborne Pathogen (BBP) Exposure Control**  
**Trainer Approval Package**

Bloodborne Pathogen (BBP) Exposure Control Training specific to the body art practice must comply with the requirements in H&SC §119307. Trainers requesting approval (inclusion on approved trainer listing) for the County of Orange's body art practitioners must submit the following information:

1. Cover letter indicating name of company/trainer, company address and/or mailing address if different, phone number, email address, and method of training (i.e. web, in-person, etc.)
2. Resume
3. Training syllabus and/or agenda indicating length of training
4. Samples of training materials and handouts. Training must address the following:
  - California Occupational Safety and Health Administration BBP Standard
  - Transmission, control, and symptoms of the diseases caused by BBP
  - Tasks involved in performing body art and how those tasks may lead to exposure to BBP for the client or practitioner
  - Types and uses of all personal protective equipment, including an explanation of the limitations of the equipment
  - Types of tasks and proper technique, and order of tasks before and after putting on and removing personal protective equipment to avoid contamination
  - Importance of hand hygiene and demonstrate proper technique
  - Choice, use, and storage of disinfectants and antiseptics
  - Information on the signage required for biohazard sharps as well as the importance of properly labeling chemicals and supplies
  - Information on hepatitis B vaccine, including safety and accessibility
  - Discussion of what constitutes a BBP exposure incident including:
    - ✓ Examples of BBP exposure, how the exposure occurred, and what actions to take to prevent or minimize future exposures
    - ✓ Risk of infection following a BBP incident
    - ✓ Procedures to be followed after an exposure incident including medical follow-up
  - Opportunities for interactive questions and answers with the instructor
5. Describe or provide a sample of Proof of Training that will be provided to the practitioners.

Trainer applications can be mailed to the address above  
and/or emailed to the following:
