Before Starting the Exhibit 1 Continuum of Care (CoC) Application

HUD strongly encourages ALL applicants to review the following information BEFORE beginning the FY2011 Exhibit 1 Continuum of Care (CoC) application.

Training resources are available online at: www.hudhre.info/esnaps   -   Training modules are available to help complete or update the Exhibit 1 application, including attaching required forms to the application.   -   The HUD HRE Virtual Help Desk is available for submitting technical and policy questions.

Things to Remember

 -   Review the FY2011 Notice of Funding Availability for the Continuum of Care (CoC) Homeless Assistance Program in its entirety for specific application and program requirements. -   CoCs that imported their FY2010 information during the CoC Registration process are reminded to carefully review each question in Exhibit 1 to ensure the response imported is appropriate. Questions may have changed from the FY2010 process in which case the imported response may no longer be relevant. Note that not all questions from FY2010 were imported and new questions will require manual responses. Be sure to review the application carefully and verify and update as needed to ensure accuracy.-   New CoCs or CoCs that did not apply in FY2010 will not have information pre-populated and must complete all Exhibit 1 forms..

1A. Continuum of Care (CoC) Identification

Instructions:

The fields on this screen are read only and reference the information entered during the CoC Registration process. Updates cannot be made at this time. If the information on this screen is not correct, contact the HUD Virtual Help Desk at www.hudhre.info.

CoC Name and Number (From CoC Registration): CA-602 - Santa Ana/Anaheim/Orange County CoC

CoC Lead Agency Name: OC Community Services

| Exhibit 1 2011 | Page 2 | 10/27/2011 |

1B. Continuum of Care (CoC) Primary Decision-Making Group

Instructions:

The following questions are related to the CoC primary decision-making group. The primary responsibility of this group is to manage the overall planning effort for the entire CoC, including, but not limited to:
- Setting agendas for full Continuum of Care meetings
- Project monitoring
- Determining project priorities
- Providing final approval for the CoC application submission.
This body is also responsible for the implementation of the CoC's HMIS, either through direct oversight or through the designation of an HMIS implementing agency. This group may be the CoC Lead Agency or may authorize another entity to be the CoC Lead Agency under its direction.

Name of primary decision-making group: Orange County CoC Community Collaborative

Indicate the frequency of group meetings: Monthly or more

If less than bi-monthly, please explain (limit 500 characters):

Indicate the legal status of the group: Other (specify)

Specify "other" legal status:

The primary decision-making body is made up of County of Orange appointed officials, nonprofit services providers, for profit agencies, businesses, elected officials and representatives, volunteers, medical and social services professionals, faith-based organizations, educational systems, and consumers.

Indicate the percentage of group members that represent the private sector: (e.g., non-profit providers, homeless or formerly homeless persons, advocates and consumer interests) 70%

* Indicate the selection process of group members: (select all that apply)

Elected:	
Assigned:	
Volunteer:	X

| Exhibit 1 2011 | Page 3 | 10/27/2011 |

Appointed:	X
Other:	

Specify "other" process(es):

Briefly describe the selection process of group members. Description should include why this process was established and how it works (limit 750 characters):

The CoC Community Collaborative(120+ members) was created to address homeless issues, ensuring a comprehensive, regional coordination of efforts and resources to reduce homelessness, and to provide leadership and direction for the regional CoC planning process. Membership is voluntary and consists of diverse service providers, ethnic groups, faith-based organizations, private and public sector, and social services/medical professionals. The Collaborative meets monthly to address homeless issues. Subgroups operate under the umbrella of the forum. The Collaborative is facilitated by two lead agencies:Orange County Community Services and OC Partnership, Orange County¿s HMIS Provider.

* Indicate the selection process of group leaders:
(select all that apply):

Elected:	
Assigned:	X
Volunteer:	X
Appointed:	X
Other:	X

Specify "other" process(es):

Exhibit 1 2011	Page 4	10/27/2011

Currently, the Homeless Leadership Cabinet, an Advisory Committee of the HCD Commission oversees regional planning efforts on behalf of the entire CoC. The Leadership Cabinet has seven members and includes elected officials, community members, county agency representatives, and four major nonprofit service providers. The Orange County Board of Supervisors appoints 11 members to serve on the Housing and Community Development Commission (HCD). These members are representatives of local government, cities (elected), nonprofit providers, community members, the faith-based community, and consumers. Three members from the HCD Commission are appointed to serve on the Homeless Leadership Cabinet (2 year terms). In addition to being the regional HMIS service provider, OC Partnership also serves on the Leadership Cabinet and acts as the voice for the CoC Community Forum and serves as technical advisor for HUD grants. The County¿s Homeless Coordinator addresses government challenges faced by the CoC, acts as the liaison to the CoC, focuses on building public/private partnerships, and coordinates the annual CoC NOFA and grant application process. This public/private partnership strengthens the CoC as funding resources are maximized when cities, nonprofits, the County, the faith based community, and consumers address the issue of homelessness together.   The CoC is now implementing the Ten-Year Plan to End Homelessness and is transitioning from the Leadership Cabinet structure to the governance structure as designed in the Plan. The Ten-Year Plan to End Homelessness (The Plan) in Orange County is the product of an integrated community collaboration. The Plan provides a roadmap of how to effectively end homelessness in Orange County within the next ten years. The Plan recommends the creation of a co-operative and region-wide governing body (Ten-Year Plan Board) with representatives from various municipal governments, business leaders, and other key stakeholders to implement the Ten-Year Plan and to provide accountability for its success.

If administrative funds were made available to the CoC, will the primary-decision making body, or its designee, have the capacity to be responsible for activities such as applying for HUD funding and serving as a grantee, providing project oversight, and monitoring? Explain (limit to 750 characters):

Orange County Community Services could feasibly administer HUD funds on behalf of the CoC. However, at present, 5% administrative funding (split with applicants) from HUD is not a sufficient amount of funding to support this activity on behalf of Orange County¿s Continuum of Care.

| Exhibit 1 2011 | Page 5 | 10/27/2011 |

1C. Continuum of Care (CoC) Committees, Subcommittees and Work Groups

Instructions:

Provide information on up to five of the CoCs most active CoC-wide planning committees, subcommittees, and workgroups. CoCs should only include information on those groups that are directly involved in CoC-wide planning activities such as project review and selection, discharge planning, disaster planning, completion of the Exhibit 1 application, conducting the point-in-time count, and 10-year plan coordination. For each group, briefly describe the role and how frequently the group meets. If one of more of the groups meet less than quarterly, please explain.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Committees and Frequency

Name of Group	Role of Group (limit 750 characters)	Meeting Frequency
CoC Community Collaborative Forum	Responsible for a) identifies gaps and priority needs of the regional CoC and examines new strategies to strengthen the current system; b) coordinates year-round efforts to complete activities related to project review and selection process of Exhibit 1 application which includes rating and performance measures, open solicitation methods, and voting and decision-making methods. The committee also reviews and responds to written complaints received by the CoC; c) plans and improves CoC-wide participation in disaster planning; and d) improves CoC-wide participation in mainstream resources and programs.	Monthly or more
10 Year Plan Board	Responsible for preparing and implementing the regional 10 Year Plan to End Homelessness including updating the goals and action steps outlined in the plan on an on-going basis.	Monthly or more
Orange County HMIS User Group	Responsible for a) ensuring the implementation of HMIS including overcoming any challenges and barriers impacting implementation, compliance with HMIS Data and Technical Standards, and integrative use with homeless counts and sub-population data; b) reviewing performance; and c) planning and coordinating the biennial Point-In-Time Count and Survey.	Bi-monthly
Ending Homelessness Implementation Groups	Implementation groups are formed around each of the Plan's goals. Coordinating and reporting on the progress in implementing the goals and strategies in the Ten-Year Plan is the major task of the groups. Members of groups work with professionals that are providing the services to the at-risk and homeless populations. Group One: Prevent Homelessness/Outreach to Homeless/At-Risk of Homelessness; Group Two: Improve Emergency Shelter System/Improve Transitional Housing System; Group Three: Develop Permanent Housing Options/Ensure People Have Resources to Remain Housed; Group Four: Improve Data Systems/Advocate for Community Support/Social Policy/Systemic Change. Groups meet at least quarterly but more frequently as needed.	Monthly or more
Discharge Planning Committee	Primarily responsible for creating and implementing comprehensive, regional discharge planning protocols for the homeless.	quarterly (once each quarter)

| Exhibit 1 2011 | Page 6 | 10/27/2011 |

If any group meets less than quarterly, please explain (limit 750 characters):

| Exhibit 1 2011 | Page 7 | 10/27/2011 |

Role(s) of the organization:
(select all that apply) Committee/Sub-committee/Work Group

Subpopulation(s) represented by the organization:
(No more than two subpopulations) Youth

Does the organization provide direct services to homeless people? Yes

Services provided to homeless persons and families:
(select all that apply) Life Skills, Utilities Assistance, Transportation, Soup Kitchen/Food Pantry

1D. Continuum of Care (CoC) Member Organizations Detail

Instructions:

| Exhibit 1 2011 | Page 286 | 10/27/2011 |

Provide information about each CoC member organization, including individuals that are part of the CoC planning process. For each member organization, provide information on the following:
 - Organization name - Enter the name of the organization or individual. If the individual is a victim of domestic violence, do not enter their actual name.
- Type of membership - Public, private, or individual
- Type of organization
- Organization role in the CoC planning process
- Subpopulations represented - No more than 2 may be selected
- Services provided, if applicable

Name of organization or individual: Coalition of Orange County Community Health Centers

Type of Membership:
(public, private, or individual) Private Sector

Type of Organization:
(Content depends on "Type of Membership" selection) Hospitals/med representatives

Role(s) of the organization:
(select all that apply) Committee/Sub-committee/Work Group

Subpopulation(s) represented by the organization:
(No more than two subpopulations) NONE

Does the organization provide direct services to homeless people? No

Services provided to homeless persons and families:
(select all that apply) Not Applicable

| Exhibit 1 2011 | Page 287 | 10/27/2011 |

1E. Continuum of Care (CoC) Project Review and Selection Process

Instructions:

The CoC solicitation of projects and the project selection process should be conducted in a fair and impartial manner. For each of the following items, indicate all of the methods and processes the CoC used in the past year to assess the performance, effectiveness, and quality of all requested new and renewal project(s).

In addition, indicate if any written complaints have been received by the CoC regarding any CoC matter in the last 12 months, and how those matters were addressed and/or resolved.

Open Solicitation Methods: **(select all that apply)**	a. Newspapers, f. Announcements at Other Meetings, e. Announcements at CoC Meetings, c. Responsive to Public Inquiries, b. Letters/Emails to CoC Membership, d. Outreach to Faith-Based Groups
Rating and Performance Assessment Measure(s): **(select all that apply)**	b. Review CoC Monitoring Findings, g. Site Visit(s), k. Assess Cost Effectiveness, q. Review All Leveraging Letters (to ensure that they meet HUD requirements), c. Review HUD Monitoring Findings, r. Review HMIS participation status, d. Review Independent Audit, j. Assess Spending (fast or slow), p. Review Match, i. Evaluate Project Readiness, e. Review HUD APR for Performance Results, n. Evaluate Project Presentation, h. Survey Clients, o. Review CoC Membership Involvement, f. Review Unexecuted Grants, a. CoC Rating & Review Commitee Exists, m. Assess Provider Organization Capacity, l. Assess Provider Organization Experience
Voting/Decision-Making Method(s): **(select all that apply)**	c. All CoC Members Present Can Vote, a. Unbiased Panel/Review Commitee, e. Consensus (general agreement), d. One Vote per Organization, f. Voting Members Abstain if Conflict of Interest
Were there any written complaints received by the CoC regarding any matter in the last 12 months?	Yes

If yes, briefly describe complaint(s), how it was resolved, and the date(s) resolved (limit 1000 characters):

The CoC has received periodic written inquiries and public records act (PRA) requests about the amount of immediate available low-demand ES beds which is addressed and prioritized in County¿s Ten Year Plan to End Homelessness. Staff has responded to the PRAs in accordance with the law and has provided information on how to participate in both the CoC and the Ten Year Plan.

| Exhibit 1 2011 | Page 288 | 10/27/2011 |

1F. Continuum of Care (CoC) Housing Inventory Count--Change in Beds Available

For each housing type, indicate if there was a change (increase or reduction) in the total number of beds counted in the FY2011 Housing Inventory Count (HIC) as compared to the FY2010 HIC. If there was a change, please describe the reasons in the space provided for each housing type. If the housing type does not exist in your CoC, please select "Not Applicable" and indicate that in the text box for that housing type.

Emergency Shelter: Yes

Briefly describe the reason(s) for the change in Emergency Shelter beds, if applicable (limit 750 characters):

There was an overall decrease in the number of total year-round emergency shelter beds. In 2010 there were 485 beds and in 2011 there were 434 beds representing a loss of 51 beds. These beds were lost because several programs were either reclassified or lost beds due to decreases in funding. In addition, two (2) emergency shelter programs are no longer in existence.

HPRP Beds: Yes

Briefly describe the reason(s) for the change in HPRP beds or units, if applicable (limit 750 characters):

There was an increase in the number of HPRP beds. In 2010 there were 149 beds and in 2011 there were 426 beds representing an increase of 277 beds. Each of the agencies participating in HPRP in 2010 increased their capacity to serve more households in 2011 in order to meet the demand for HPRP resources.

Safe Haven: Not Applicable

Briefly describe the reason(s) for the change in Safe Haven beds, if applicable (limit 750 characters):

Transitional Housing: Yes

Briefly describe the reason(s) for the change in Transitional Housing beds, if applicable (limit 750 characters):

There was an overall increase in the number of total year-round transitional housing beds. In 2010 there were 2,044 beds and in 2011 there were 2,201 beds representing a gain of 157 beds which was due to new program beds and an expansion of new beds by existing programs.

| Exhibit 1 2011 | Page 289 | 10/27/2011 |

Permanent Housing: Yes

Briefly describe the reason(s) for the change in Permanent Housing beds, if applicable (limit 750 characters):

There was an increase in the number of total year-round permanent supportive housing beds. In 2010 there were 997 and in 2011 there were 1,315 beds representing a gain of 318 beds. Of these 318 beds, 300 of them are the result of HUD VASH vouchers. In addition, 52 new S+C beds were added for a combined total of 352 beds. However, 34 existing PH beds in 2010 were reclassified as transitional housing by one agency this past year. Thus, the net gain was 318 beds.

CoC certifies that all beds for homeless persons were included in the Housing Inventory Count (HIC) as reported on the Homelessness Data Exchange (HDX), regardless of HMIS participation and HUD funding: Yes

| Exhibit 1 2011 | Page 290 | 10/27/2011 |

1G. Continuum of Care (CoC) Housing Inventory Count - Data Sources and Methods

Instructions:

Complete the following items based on data collection methods and reporting for the Housing Inventory Count (HIC), including Unmet need determination. The information should be based on a survey conducted in a 24-hour period during the last ten days of January 2011. CoCs were expected to report HIC data on the Homelessness Data Exchange (HDX).

Did the CoC submit the HIC data in HDX by May 31, 2011?	Yes
If no, briefly explain why the HIC data was not submitted by May 31, 2011 (limit 750 characters).	
Indicate the type of data sources or methods used to complete the housing inventory count: (select all that apply)	HMIS plus housing inventory survey
Indicate the steps taken to ensure the accuracy of the data collected and included in the housing inventory count: (select all that apply)	Follow-up, Instructions, Updated prior housing inventory information, Confirmation, Training, HMIS
Must specify other:	
Indicate the type of data or method(s) used to determine unmet need: (select all that apply):	Unsheltered count, HUD unmet need formula, HMIS data, Local studies or non-HMIS data sources, Housing inventory, Stakeholder discussion
Specify "other" data types:	
If more than one method was selected, describe how these methods were used together (limit 750 characters):	

Exhibit 1 2011	Page 291	10/27/2011

Key community stakeholders discussed the initial estimates of unmet need which were based on HUD's unmet need formula to determine if adjustments were necessary based on information from local studies and non-HMIS data sources including the 10-year plan to end homelessness, e-HIC, HMIS, and the 2011 Orange County homeless count and survey.

Adjustments were made to the number of persons in need of emergency shelter, transitional housing, and permanent supportive housing beds. Adjustments were also based on need. For example, all chronically homeless persons were targeted for PSH and families shortened stays in TH. These adjusted numbers were then used to recalculate the unmet need by program type through HUD's unmet need formula.

| Exhibit 1 2011 | Page 292 | 10/27/2011 |

2A. Homeless Management Information System (HMIS) Implementation

Intructions:

All CoCs are expected to have a functioning Homeless Management Information System (HMIS). An HMIS is a computerized data collection application that facilitates the collection of information on homeless individuals and families using residential or other homeless services and stores that data in an electronic format. CoCs should complete this section in conjunction with the lead agency responsible for the HMIS. All information should reflect the status of HMIS implementation as of the date of application submission.

 For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Select the HMIS implementation coverage area:	Regional (multiple CoCs)
Select the CoC(s) covered by the HMIS: (select all that apply)	CA-600 - Los Angeles City & County CoC, CA-612 - Glendale CoC, CA-602 - Santa Ana/Anaheim/Orange County CoC, CA-607 - Pasadena CoC
Is the HMIS Lead Agency the same as the CoC Lead Agency?	No
Does the CoC Lead Agency have a written agreement with the HMIS Lead Agency?	Yes
Has the CoC selected an HMIS software product?	Yes
If "No" select reason:	
If "Yes" list the name of the product:	Adaptive Enterprise Soluitions
What is the name of the HMIS software company?	Adsystech, Inc.
Does the CoC plan to change HMIS software within the next 18 months?	No
Indicate the date on which HMIS data entry started (or will start): (format mm/dd/yyyy)	07/01/2005
Indicate the challenges and barriers impacting the HMIS implementation: (select all the apply):	Poor data quality

If CoC indicated that there are no challenges or barriers impacting HMIS implementation, briefly describe either why CoC has no challenges or how all barriers have been overcome (limit 1000 characters).

Exhibit 1 2011	Page 293	10/27/2011

If CoC identified one or more challenges or barriers impacting HMIS implementation, briefly describe how the CoC plans to overcome them (limit 1000 characters).

CoC will overcome the poor data quality barrier by 1) continuing to work with vendor and Collaborative to enhance the interface, system features and reporting functionality; 2) continue to provide group trainings and individual coaching training on the importance of good data quality to the service providers; 3) continue an HMIS service provider site visit program during which a trained HMIS Support Specialist meets with the service provider at their location in order to facilitate better communication and training; and 4) continue marketing strategy of engaging the service providers with comprehensive client demographic and service utilization report that can be used as a tool for funding and program evaluation.

| Exhibit 1 2011 | Page 294 | 10/27/2011 |

2B. Homeless Management Information System (HMIS) Lead Agency

Enter the name and contact information for the HMIS Lead Agency. This is the organization responsible for implementing the HMIS within a CoC. There may only be one HMIS Lead Agency per CoC.

Organization Name	OC Partnership
Street Address 1	1505 E. 17th, Suite 108
Street Address 2	
City	Santa Ana
State	California
Zip Code Format: xxxxx or xxxxx-xxxx	92705
Organization Type	Non-Profit
If "Other" please specify	
Is this organization the HMIS Lead Agency in more than one CoC?	No

| Exhibit 1 2011 | Page 295 | 10/27/2011 |

2C. Homeless Management Information System (HMIS) Bed Coverage

Instructions:

HMIS bed coverage measures the level of provider participation in a CoC's HMIS. Participation in HMIS is defined as the collection and reporting of client level data either through direct data entry into the HMIS or into an analytical database that includes HMIS data on an at least annual basis.

HMIS bed coverage is calculated by dividing the total number of year-round beds located in HMIS-participating programs by the total number of year-round beds in the Continuum of Care (CoC), after excluding beds in domestic violence (DV) programs. HMIS bed coverage rates must be calculated separately for emergency shelters, transitional housing, and permanent supportive housing.

The 2005 Violence Against Women Act (VAWA) Reauthorization bill restricts domestic violence provider participation in HMIS unless and until HUD completes a public notice and comment process. Until the notice and comment process is completed, HUD does not require nor expect domestic violence providers to participate in HMIS. HMIS bed coverage rates are calculated excluding domestic violence provider beds from the universe of potential beds.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Indicate the HMIS bed coverage rate (%) for each housing type within the CoC. If a particular housing type does not exist anywhere within the CoC, select "Housing type does not exist in CoC" from the drop-down menu.

* **Emergency Shelter (ES) Beds**	65-75%
* **Safe Haven (SH) Beds**	No beds in CoC
* **Transitional Housing (TH) Beds**	76-85%
* **Permanent Housing (PH) Beds**	86%+

How often does the CoC review or assess its HMIS bed coverage?   At least Monthly

If bed coverage is 0-64%, describe the CoC's plan to increase this percentage during the next 12 months:

| Exhibit 1 2011 | Page 296 | 10/27/2011 |

2D. Homeless Management Information System (HMIS) Data Quality

Instructions:

HMIS data quality refers to the extent that data recorded in an HMIS accurately reflects the extent of homelessness and homeless services in a local area. In order for HMIS to present accurate and consistent information on homelessness, it is critical that all HMIS have the best possible representation of reality as it relates to homeless people and the programs that serve them. Specifically, it should be a CoC's goal to record the most accurate, consistent and timely information in order to draw reasonable conclusions about the extent of homelessness and the impact of homeless services in its local area. Answer the questions below related to the steps the CoC takes to ensure the quality of its data. In addition, CoCs will indicate their participation in the Annual Homelessness Assessment Report (AHAR) for 2010 and 2011 as well as whether or not they plan to contribute data to the Homelessness Pulse project in 2012.

For additional instructions, refer to the Exhibit 1 Detailed Instructions, which can be accessed on the left-hand menu bar.

Indicate the percentage of unduplicated client records with null or missing values on a day during the last ten days of January 2011.

Universal Data Element	Records with no values (%)	Records where value is refused or unknown (%)
* Social Security Number	26%	26%
* Date of Birth	0%	0%
* Ethnicity	0%	8%
* Race	12%	0%
* Gender	0%	7%
* Veteran Status	0%	14%
* Disabling Condition	0%	13%
* Residence Prior to Program Entry	10%	16%
* Zip Code of Last Permanent Address	16%	16%
* Name	0%	0%

How frequently does the CoC review the quality of program level data?   At least Monthly

Describe the process, extent of assistance, and tools used to improve data quality for agencies participating in the HMIS (limit 750 characters):

| Exhibit 1 2011 | Page 297 | 10/27/2011 |

Monthly data quality reports reflecting missing data are run by HUD funded agencies; they are required to run QPRs quarterly and fix problem areas. Agencies run monthly report bundles that review bed utilization. The reporting system views month-to-month compliance and monitors improvement. User meetings are held every other month to discuss common problems and review data. On-site visits are conducted with agencies to assist with utilization and data collection. Training Specialists also provide extensive HMIS user training including: basic computer training, HMIS software training, and how to generate data quality reports that indicate data element deficiencies.

Describe the existing policies and procedures used to ensure that valid program entry and exit dates are recorded in the HMIS (limit 750 characters):

HUD participating agencies are required to input client data within one week after the date of program entry. An ad hoc report allows agencies to view entry dates and check whether the clients need to be exited from the system. The agencies produce and sign a Data Certification form of Data Quality on a monthly basis (verifying correction of client data deficiencies), which is submitted to the CoC. Each month, HMIS Support Staff reviews data integrity by generating null value reports, including missing values in HUD universal and program data elements. Errors must be corrected. Also, in the monthly HMIS newsletter, all agencies that meet HUD standards on three selected data elements are highlighted.

Indicate which reports the CoC or subset of the CoC submitted usable data: (Select all that apply)   None

Indicate which reports the CoC or subset of the CoC plans to submit usable data: (Select all that apply)   2011 AHAR, 2011 AHAR Supplemental Report on Homeless Veterans

| Exhibit 1 2011 | Page 298 | 10/27/2011 |

2E. Homeless Management Information System (HMIS) Data Usage

Instructions:

CoCs can use HMIS data for a variety of applications. These include, but are not limited to, using HMIS data to understand the characteristics and service needs of homeless people, to analyze how homeless people use services, and to evaluate program effectiveness and outcomes.

In this section, CoCs will indicate the frequency in which it engages in the following.

- Integrating or warehousing data to generate unduplicated counts
- Point-in-time count of sheltered persons
- Point-in-time count of unsheltered persons
- Measuring the performance of participating housing and service providers
- Using data for program management
- Integration of HMIS data with data from mainstream resources

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions¿ which can be accessed on the left-hand menu bar.

Indicate the frequency in which the CoC uses HMIS data for each of the following:

Integrating or warehousing data to generate unduplicated counts:	At least Monthly
Point-in-time count of sheltered persons:	At least Annually
Point-in-time count of unsheltered persons:	Never
Measuring the performance of participating housing and service providers:	At least Monthly
Using data for program management:	At least Monthly
Integration of HMIS data with data from mainstream resources:	Never

| Exhibit 1 2011 | Page 299 | 10/27/2011 |

2F. Homeless Management Information System (HMIS) Data and Technical Standards

Instructions:

In order to enable communities across the country to collect homeless services data consistent with a baseline set of privacy and security protections, HUD has published HMIS Data and Technical Standards. The standards ensure that every HMIS captures the information necessary to fulfill HUD reporting requirements while protecting the privacy and informational security of all homeless individuals.

Each CoC is responsible for ensuring compliance with the HMIS Data and Technical Standards. CoCs may do this by completing compliance assessments on a regular basis and through the development of an HMIS Policy and Procedures manual. In the questions below, CoCs are asked to indicate the frequency in which they complete compliance assessment.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

For each of the following HMIS privacy and security standards, indicate the frequency in which the CoC and/or HMIS Lead Agency complete a compliance assessment:

* Unique user name and password	At least Monthly
* Secure location for equipment	At least Monthly
* Locking screen savers	At least Monthly
* Virus protection with auto update	At least Monthly
* Individual or network firewalls	At least Monthly
* Restrictions on access to HMIS via public forums	At least Monthly
* Compliance with HMIS Policy and Procedures manual	At least Monthly
* Validation of off-site storage of HMIS data	At least Monthly

How often does the CoC Lead Agency assess compliance with the HMIS Data and Technical Standards? At least Monthly

How often does the CoC Lead Agency aggregate data to a central location (HMIS database or analytical database)? At least Monthly

Does the CoC have an HMIS Policy and Procedures manual? Yes

If 'Yes' indicate date of last review or update by CoC: 10/17/2011

If 'No' indicate when development of manual will be completed (mm/dd/yyyy):

Exhibit 1 2011	Page 300	10/27/2011

2G. Homeless Management Information System (HMIS) Training

Instructions:

Providing regular training opportunities for homeless assistance providers that are participating in a local HMIS is a way that CoCs can ensure compliance with the HMIS Data and Technical Standards. In the section below, CoCs will indicate how frequently they provide certain types of training to HMIS participating providers.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Indicate the frequency in which the CoC or HMIS Lead Agency offers each of the following training activities:

* **Privacy/Ethics training**	At least Monthly
* **Data Security training**	At least Monthly
* **Data Quality training**	At least Monthly
* **Using Data Locally**	At least Monthly
* **Using HMIS data for assessing program performance**	At least Monthly
* **Basic computer skills training**	At least Monthly
* **HMIS software training**	At least Monthly

| Exhibit 1 2011 | Page 301 | 10/27/2011 |

2H. Continuum of Care (CoC) Sheltered Homeless Population & Subpopulation: Point-In-Time (PIT) Count

Instructions:

The purpose of the point-in-time count is to further understand the number and characteristics of people sleeping on the streets, including places not meant for human habitation, emergency shelters, and transitional housing. Although CoCs are only required to conduct a point-in-time count every two years, HUD strongly encourages CoCs to conduct a point-in-time count annually.

CoCs are to indicate how frequently they will conduct a point-in-time count and what percentage of their homeless service providers participated. CoCs will also describe if there was an increase, decrease, or no change between the most recent point-in-time count and the one prior. CoCs are to indicate in the narrative which years are being compared.

How frequently does the CoC conduct a point-in-time count? biennially (every other year)

*Indicate the date of the most recent point-in-time count (mm/dd/yyyy): 01/22/2011

If the CoC conducted the point-in-time count outside the last 10 days in January, was a waiver from HUD obtained prior to January 19, 2011? No

Did the CoC submit the point-in-time count data in HDX by May 31, 2011? Yes

If no, briefly explain why the point-in-time data was not submitted by May 31, 2011 (limit 750 characters).

Enter the date in which the CoC plans to conduct its next point-in-time count: (mm/dd/yyyy) 01/26/2013

| Exhibit 1 2011 | Page 302 | 10/27/2011 |

Indicate the percentage of homeless service providers supplying population and subpopulation data for the point-in-time count that was collected via survey, interview, and/or HMIS.

Emergency Shelter: 100%

Transitional Housing: 100%

Comparing the most recent point-in-time count to the previous point-in-time count, describe any factors that may have resulted in an increase, decrease, or no change in both the sheltered and unsheltered population counts (limit 1500 characters).

The 2009 census methodology was used in 2011. In both years, the same approach in regards to planning, logistics, and sampling was taken. Additionally, the methods and sampling process was overseen by a professional statistician at the University of California, Los Angeles.

The sheltered census results showed no significant change in the sheltered homeless population between 2009 and 2011 (an increase of 2% or 58 individuals).

While the unsheltered population decreased by nearly 1,500 (or 25%), this decrease is not believed to have been caused by a change in research methodology. Some reasons for the decrease in the unsheltered population include: 1) anecdotal reports regarding an increase in individuals who do not meet HUD's definition of "literally homeless" (e.g., an increase in those who are precariously housed); 2) anecdotal reports regarding an increase homeless support services; 3) increased activity and more focused efforts on working on the 10-year plan; and 4)successful implementation of HPRP, VASH, Mental Health, and other successful initiatives.

Although the margin of error in 2011 was 877, or 12.6%, at a 95% confidence level, this was an improvement from 2009's margin of error of 1,088, or 13.1% (at a 95% confidence level). Nevertheless, the margin of error in both years are relatively low and the results from both years are comparable relative to accuracy.

| Exhibit 1 2011 | Page 303 | 10/27/2011 |

2I. Continuum of Care (CoC) Sheltered Homeless Population & Subpopulations: Methods

Instructions:

Accuracy of the data reported in point-in-time counts is vital. Data produced from these counts must be based on reliable methods and not on "guesstimates." CoCs may use one or more method(s) to count sheltered homeless persons. This form asks CoCs to identify and describe which method(s) were used to conduct the point-in-time counts. The description should demonstrate how the method(s) was used to produce an accurate count.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Indicate the method(s) used to count sheltered homeless persons during the last point-in-time count:
(Select all that apply):

Survey Providers:	X
HMIS:	X
Extrapolation:	
Other:	

If Other, specify:

Describe the methods used by the CoC, as indicated by the above selected method(s), to collect data on the sheltered homeless population during the most recent point-in-time count. Response should indicate how the method(s) selected above were used in order to produce accurate data (limit 1500 characters):

| Exhibit 1 2011 | Page 304 | 10/27/2011 |

A HUD-recommended practice was used for collecting data on the sheltered homeless population. The methods used were three-fold:

1) Prior to the point-in-time sheltered count, the Housing Inventory Chart (HIC) that was submitted to HUD in May 2010 was updated to include any new emergency shelters, transitional housing, and overflow beds. The basic approach was to identify and include in the HIC all shelters and institutions, both public and private, that temporarily house homeless people. These agencies included: emergency shelters, transitional housing facilities, and other agencies that provide overflow beds or hotel/motel vouchers.

2) Each of these agencies were then asked to complete a survey, which asked them to report their capacity and occupancy for the night of January 21, 2011 (the night prior to the street enumeration). Other information was also gathered, including the types of information contained in the HIC.

3) HMIS was then used to verify the total beds that were occupied for the agencies listed in the updated HIC. Data that were different were reconciled and the reconciled numbers were reported in the CoC's HIC that was submitted in May 2011.

As a result, these three steps allowed the CoC to capture the necessary data to complete an accurate sheltered count for HUD funded and non-HUD funded emergency shelter, transitional housing, and overflow beds.

| Exhibit 1 2011 | Page 305 | 10/27/2011 |

2J. Continuum of Care (CoC) Sheltered Homeless Population and Subpopulation: Data Collection

Instructions:

CoCs are required to produce data on seven subpopulations. These subpopulations are: chronically homeless, severely mentally ill, chronic substance abuse, veterans, persons with HIV/AIDS, victims of domestic violence, and unaccompanied youth (under 18). Subpopulation data is required for sheltered homeless persons and, with the exception of chronically homeless and veterans, optional for unsheltered persons. Sheltered chronically homeless persons are those living in emergency shelters only.

 The definition of chronically homeless persons is an unaccompanied invididual with a disabling condition, or an adult member of a family with a disabling condition, who meets all other requirements for chronic homeless designation. CoCs may use a variety of methods to collect subpopulation information on sheltered homeless persons and may utilize more than one in order to produce the most accurate data. This form asks CoCs to identify and describe which method(s) were used to gather subpopulation information for sheltered populations during the most recent point-in-time count. The description should demonstrate how the method(s) was used to produce an accurate count.

 For additional instructions, refer to the Exhibit 1 Detailed Instructions which can be accessed on the left-hand menu bar.

Indicate the method(s) used to gather and calculate subpopulation data on sheltered homeless persons
(select all that apply):

HMIS	
HMIS plus extrapolation:	
Sample of PIT interviews plus extrapolation:	X
Sample strategy:	Random Sample
Provider expertise:	
Interviews:	
Non-HMIS client level information:	
None:	
Other:	

If Other, specify:

Describe the methods used by the CoC, based on the selections above, to collect data on the sheltered homeless subpopulations during the most recent point-in-time count. Response should indicate how the method(s) selected above were used in order to produce accurate data on all of the sheltered subpopulations (limit 1500 characters):

| Exhibit 1 2011 | Page 306 | 10/27/2011 |

Using a HUD-approved method for collecting subpopulation data, surveys were administered with a sample of homeless individuals residing at emergency shelters and transitional housing facilities. Several critical steps were taken to ensure the accuracy of data on the these populations:
1) a randomized "every third encounter" approach was used;
2) homeless peers, community volunteers, and program staff administered these surveys. All surveyors went through a comprehensive training for survey administration.
3) survey quotas were created in order to ensure the representation of transitional housing residents, who can be underrepresented in a street-based survey, and to reach individuals and heads of family households living in these programs.

The same survey was used in both shelter and street environments. The survey asked questions regarding respondents' subpopulation status, the results of which were used to extrapolate subpopulation data for the entire sheltered population in Orange County.

Altogether, approximately 25% of all survey respondents were sheltered homeless. This is representative of the homeless population in Orange County, as 38% of the overall population is sheltered.

| Exhibit 1 2011 | Page 307 | 10/27/2011 |

2K. Continuum of Care (CoC) Sheltered Homeless Population and Subpopulation: Data Quality

Instructions:

The data collected during point-in-time counts is vital for CoCs and HUD. Communities need accurate data to determine the size and scope of homelessness at the local level to plan services and programs that will appropriately address local needs and measure progress in addressing homelessness. HUD needs accurate data to understand the extent and nature of homelessness throughout the country and to provide Congress and OMB with information regarding services provided, gaps in service, performance, and funding decisions. It is vital that the quality of data reported accurate and of high quality. CoCs may undertake once or more actions to improve the quality of the sheltered population data.

For additional instructions, refer to the Exhibit 1 Detailed Instructions which can be accessed on the left-hand menu bar.

Indicate the method(s) used to verify the data quality of sheltered homeless persons:
(select all that apply)

Instructions:	X
Training:	X
Remind/Follow-up	X
HMIS:	X
Non-HMIS de-duplication techniques:	X
None:	
Other:	

If Other, specify:

If selected, describe the non-HMIS de-duplication techniques used by the CoC to ensure the data quality of the sheltered persons count (limit 1000 characters).

Several techniques were implemented to ensure that the count was de-duplicated and as accurate as possible. The unsheltered count was conducted in the early morning hours, before the shelter residents left the next day (who were enumerated the night prior), this was crucial to avoiding duplication between sheltered individuals and unsheltered individuals.

All reported data was reviewed several times and vetted by several different sources to make sure that it was correct and made sense when compared to their capacity and other variables. Additionally, 2011 data was compared to the 2009 numbers and any large discrepancies were reconciled, updated, and reported in the CoC's HIC submitted in May 2011.

Describe the methods used by the CoC, based on the selections above, to collect data on the sheltered homeless subpopulations during the most recent point-in-time count. Response is to indicate how the method(s) selected above were used in order to produce accurate data on all of the sheltered subpopulations (limit 1500 characters):

| Exhibit 1 2011 | Page 308 | 10/27/2011 |

Instructions: The CoC provided written instructions to each shelter provider who participated in the sheltered count. The instructions noted the day of the count and the time to conduct the count. They contained the count instrument and instructions about how to complete the instrument. The instructions also provided the contact information for the count coordinator who was available to answer questions before, the day of, and after the count.

Training: The CoC provided training with each shelter provider regarding the questions in the count instrument that captured a point-in-time count and the various questions needed to be answered in order to determine subpopulations. This helped ensure that providers were answering the questions correctly. Providers were also told that self-administered surveys were not allowed.

Remind/Follow-up: Three reminders were sent to providers during the three weeks prior to the PIT count. Also, another reminder was sent during the day before the count. All instruments were reviewed for accuracy when collected from the providers. The coordinator contacted the few providers that did not turn in accurate data right after the count and worked with them to correct their data.

HMIS: The CoC had its HMIS provider produce the number of persons who were entered into the system on the day of the PIT count and compared the numbers to those provided by providers on the count instrument. Some differences were noted and reconciled.

| Exhibit 1 2011 | Page 309 | 10/27/2011 |

2L. Continuum of Care (CoC) Unsheltered Homeless Population and Subpopulation: Methods

Instructions:

Accuracy of the data reported in point-in-time counts is vital. Data produced from these counts must be based on reliable methods and not on "guesstimates." CoCs may use one or more methods to count unsheltered homeless persons. This form asks CoCs to identify which method(s) they use to conduct their point-in-time counts.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Indicate the method(s) used during the most recent point-in-time count of unsheltered homeless persons:
(select all that apply)

Public places count:	
Public places count with interviews:	X
Service-based count:	
HMIS:	
Other:	X

If Other, specify:

A statistical sampling approach was undertaken in conjunction with a team of statisticians from UCLA and Applied Survey Research. A stratified sample of all census tracts was developed.

Describe the method(s) used by the CoC based on the selections above, to count unsheltered homeless populations during the most recent point-in-time count. Response should indicate how the method(s) selected above were used in order to obtain accurate data (limit 1500 characters).

Exhibit 1 2011	Page 310	10/27/2011

The unsheltered homeless count took place in the early morning hours of January 22, 2011 in public locations in a sample of 150 of 577 census tracts. The logistics for conducting a point-in-time street count in a county this large and densely populated required the enumeration to take place on a sample basis. The overall unsheltered homeless population was estimated from the data gathered in the 150 tracts.

Sixty individuals provided input on ¿hot spots¿ where enumeration teams would be likely to encounter homeless persons. Information on "warm" and ¿cold spots¿ was also collected. A statistician from UCLA and a statistics team reviewed the list of ¿hot," "warm," and "cold" tracts and selected all 44 ¿hot¿ tracts, and at random 16 "warm" tracts and 90 "cold" tracts to be included in the sample.

The statistical projection for the countywide unsheltered homeless population was 6,939. The margin of error in 2011 was 877, or 12.6%, at a 95% confidence level. Given this methodology, Orange County is highly confident that the results are as accurate as possible.

Several steps were taken to ensure the accuracy of data:
1) A randomized "every third encounter" approach was used;
2) Homeless peers administered these surveys. All surveyors went through a comprehensive training for survey administration.
3) Survey quotas were established in order to ensure the representation of the unsheltered population.

The results were used to extrapolate subpopulation data for the entire unsheltered population.

| Exhibit 1 2011 | Page 311 | 10/27/2011 |

2M. Continuum of Care (CoC) Unsheltered Homeless Population and Subpopulation: Level of Coverage

Instructions:

CoCs may utilize several methods when counting unsheltered homeless persons. CoCs need to determine what area(s) they will go to in order to count this population. For example, CoCs may canvas an entire area or only those locations where homeless persons are known to sleep. CoCs are to indicate the level of coverage incorporated when conducting the unsheltered count.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Indicate where the CoC located the unsheltered homeless persons (level of coverage) that were counted in the last point-in-time count: A Combination of Locations

If Other, specify:

| Exhibit 1 2011 | Page 312 | 10/27/2011 |

2N. Continuum of Care (CoC) Unsheltered Homeless Population and Subpopulation: Data Quality

Instructions:

The data collected during point-in-time counts is vital for CoCs and HUD. Communities need accurate data to determine the size and scope of homelessness at the local level to plan services and programs that will appropriately address local needs and measure progress in addressing homelessness. HUD needs accurate data to understand the extent and nature of homelessness throughout the country and to provide Congress and OMB with information regarding services provided, gaps in service, performance, and funding decisions. It is vital that the quality of data reported is accurate and of high quality. CoCs may undertake one or more actions to improve the quality of the sheltered population data.

All CoCs should engage in activities to reduce the occurrence of counting unsheltered persons more than once during the point-in-time count. The strategies are known as de-duplication techniques. De-duplication techniques should always be implemented when the point-in-time count extends beyond one night or takes place during the day at service locations used by homeless persons that may or may not use shelters. CoCs are to describe de-duplication techniques used in the point-in-time count. CoCs are also asked to describe outreach efforts to identify and engage homeless individuals and families.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions¿ which can be accessed on the left-hand menu bar.

Indicate the steps taken by the CoC to ensure the quality of the data collected for the unsheltered population count:
(select all that apply)

Training:	X
HMIS:	
De-duplication techniques:	X
"Blitz" Count:	
Unique Identifier:	
Survey Question:	
Enumerator Observation:	X
Other:	

If Other, specify:

Describe the techniques, as selected above, used by the CoC to reduce the occurrence of counting unsheltered homeless persons more than once during the most recent point-in-time count (limit 1500 characters):

| Exhibit 1 2011 | Page 313 | 10/27/2011 |

The CoC was very sensitive about the duplication issue throughout the entire Census process. Several techniques were implemented to ensure that the count was unduplicated and as accurate as possible:
1) Conducting the count in the early morning hours before the street homeless are awake and start moving around, and before sheltered homeless individuals left for the day;
2) Assigning each census enumerator team tract(s) that only their team covered;
3) Equipping each team with maps that their team is responsible for covering so they can track which streets they have already covered;
4) Deploying all teams as quickly as possible;
5) Instructing enumerators to make observations on the appearance of the homeless individuals they were counting, so if they see them again, they will recognize them and won't count them again;
6) Debriefing with the teams upon their return and assessing the integrity of the enumeration effort;
7) Verifying that every accessible road within the assigned area was enumerated.

All census enumerators, both volunteers and homeless guides, attended a comprehensive street count training where they were informed about these techniques. By taking these measures to avoid double counting, Orange County is highly confident that the street count results are as accurate and as valid as possible.

Describe the CoCs efforts to reduce the number of unsheltered homeless households with dependent children. Discussion should include the CoCs outreach plan (limit 1500 characters):

The CoC continues to promote and implement a community-wide CoC system that is based upon: 1) outreach, intake, and assessment in order to identify and link to service and housing needs; 2) ES which provides services to help residents obtain and maintain permanent housing; 3) TH which provides services to help residents obtain and maintain permanent housing; and 4) PH and PSH to provide individuals and families with an affordable place to live with on-site and/or off-site services. In particular, the CoC supports transitional housing for households with children for up to two years.

The CoC has promoted a community-wide Housing First approach and received HPRP funding to help implement this approach. HPRP funding is used for homeless prevention which provides HPRP resources for at-risk households with children, to prevent them from becoming homeless and keeping them in their current housing. HPRP funding is used for rapid rehousing which provides resources to divert households, including those with children, who become homeless from the shelter system whenever possible and into an affordable place to live with on-site and/or off-site services. The CoC has also adopted a family redirection program in partnership with the Armory Emergency Shelter provider to divert families from shelters and into transitional housing and/or permanent housing and a mobile multiservice center that links families to a multitude of services in order to obtain and maintain permanent housing.

Describe the CoCs efforts to identify and engage persons that routinely sleep on the streets or other places not meant for human habitation (limit 1500 characters):

| Exhibit 1 2011 | Page 314 | 10/27/2011 |

The County of Orange Health Care Agency/Behavioral Health Services has several outreach and engagement programs funded by the Mental Health Services Act (MHSA) that include services for homeless persons. Programs provide mobile response, including mental health evaluations/assessment, for those who are experiencing a mental health crisis, 24 hours per day/7 days per week. In response to psychiatric emergencies, staff provides crisis intervention for hospital diversions, evaluations for involuntary hospitalizations. Other services include housing services, community-based Wraparound Recovery Services, vocational and educational services, job coaching/developing, consumer employment, money management/representative payee support, transportation, illness education and self-management, medication support, dual diagnosis recovery services, and linkage to financial benefits/entitlements. Also, the first annual 2011 Orange County Stand Down provided a one-stop shop for homeless and at-risk Veterans to get matched with essential services such as medical, dental, and vision exams, employment and housing assistance, as well as Veterans benefit identification and assistance.
A Homeless Outreach Court is also held at Orange County Rescue Mission and Mental Health Association.

| Exhibit 1 2011 | Page 315 | 10/27/2011 |

3A. Continuum of Care (CoC) Strategic Planning Objectives

Objective 1: Create new permanent housing beds for chronically homeless persons.

Instructions:

Ending chronic homelessness continues to be a HUD priority. CoCs can do this by creating new permanent housing beds that are specifically designated for this population. In the FY2010 NOFA, chronically homeless persons were defined an unaccompanied homeless individual with a disabling condition, or a family where at least one adult member had a disabling condition, who has either been continuously homeless for at least a year OR has had at least four episodes of homelessness in the past three (3) years.

CoCs are to describe the short-term and long-term plans for creating new permanent housing beds for chronically homeless persons who meet the definition of chronically homeless. CoCs will also indicate the current number of permanent housing beds designated for chronically homeless persons. This number should match the number of beds reported in the FY2011 Housing Inventory Count (HIC) and enter into the Homeless Data Exchange (HDX). CoCs will then enter the number of permanent housing beds expected to be in place in 12 months, 5 years, and 10 years. These future estimates should be based on the definition of chronically homeless.

For additional instructions, refer to the 'Exhibit 1 Detailed Instructions' which can be accessed on the left-hand menu bar.

How many permanent housing beds are currently in place for chronically homeless persons? 457

In 12 months, how many permanent housing beds designated for chronically homeless persons are planned and will be available for occupancy? 477

In 5 years, how many permanent housing beds designated for chronically homeless persons are planned and will be available for occupancy? 677

In 10 years, how many permanent housing beds designated for chronically homeless persons are planned and will be available for occupancy? 877

Describe the CoC's short-term (12 month) plan to create new permanent housing beds for persons who meet HUD's definition of chronically homeless (limit 1000 characters):

The CoC will, through the Orange County Housing Authority, create eight (8) beds with S+C certificates and an additional 12 beds for the chronically homeless through HUD VASH vouchers for a total of 20 beds.

| Exhibit 1 2011 | Page 316 | 10/27/2011 |

Describe the CoC's long-term (10 year) plan to create new permanent housing beds for persons who meet HUD's definition of chronically homeless (limit 1000 characters):

The CoC created the "Orange County Ten-Year Plan to End Homelessness." Action steps that have been taken to increase the number of new permanent housing beds include: 1)adopting a Housing First philosophy for homeless individuals with disabling conditions (or conditions that impact their ability to remain housed); 2)working in partnership with cities and counties to reduce regulatory barriers to affordable housing development; and 3)designing and implementing programs using HOME grants, Mental Health Services Act, and/or other funding sources that can be used for flexible tenant-based rental assistance with flat or tiered rent subsidies and required participation in supportive services for individuals coming out of the homeless system of care.

| Exhibit 1 2011 | Page 317 | 10/27/2011 |

3A. Continuum of Care (CoC) Strategic Planning Objectives

Objective 2: Increase the percentage of participants remaining in CoC funded permanent housing projects for at least six months to 77 percent or more.

Instructions:

Increasing self-sufficiency and stability of permanent housing program participants is an important outcome measurement of HUD's homeless assistance programs. Each SHP-PH and S+C project is expected to report the percentage of participants remaining in permanent housing for more than six months on its Annual Performance Report (APR). CoCs then use this data from all of its permanent housing projects to report on the overall CoC performance on form 4C. Continuum of Care (CoC) Housing Performance.

In this section, CoCs are to describe short-term and long-term plans for increasing the percentage of participants remaining in all of its CoC-funded permanent housing projects (SHP-PH or S+C) to at least 77 percent. CoCs will indicate the current percentage of participants remaining in these projects, as indicted on form 4C. as well as the expected percentage in 12 months, 5 years, and 10 years. CoCs that do not have any CoC-funded permanent housing projects (SHP-PH or S+C) for which an APR was required should indicate this by entering "0" in the numeric fields and note in the narratives.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

What is the current percentage of participants remaining in CoC-funded permanent housing projects for at least six months? 91

In 12 months, what percentage of participants will have remained in CoC-funded permanent housing projects for at least six months? 91

In 5 years, what percentage of participants will have remained in CoC-funded permanent housing projects for at least six months? 91

In 10 years, what percentage of participants will have remained in CoC-funded permanent housing projects for at least six months? 91

Describe the CoCs short-term (12 month) plan to increase the percentage of participants remaining in CoC-funded permanent housing projects for at least six months to 77 percent or higher (limit 1000 characters):

| Exhibit 1 2011 | Page 318 | 10/27/2011 |

The CoC has exceeded the national average threshold of 77% and will maintain or exceed its current percentage (91%) of homeless persons remaining in permanent housing for at least six months by: 1) increasing data tracking capacity through surveys and HMIS to assess how long formerly homeless from regional shelters are staying in PH; 2) increasing the percentage of S+C participants staying in PH over 6 months through supportive services provided by County Health Care Agency
and nonprofit partners for 100% (entire) duration of clients stay in S+C Housing; 3) monitoring HUD funded TH shelter providers annually to assess compliance with HUD goals related to moving TH clients into permanent housing; and 4) evaluate "reasons for exit" for those families and individuals leaving PH prior to 6 months of stay to determine if particular categories of exit reasons can be avoided.

Describe the CoCs long-term (10 year) plan to increase the percentage of participants remaining in CoC-funded permanent housing projects for at least six months to 77 percent or higher (limit 1000 characters):

CoC will continue to implement the steps noted above. In addition, CoC will continuously identify best practices and present its findings to permanent supportive housing providers in order to help them adopt new, or modify existing, protocols and services in order to increase their retention outcomes.

| Exhibit 1 2011 | Page 319 | 10/27/2011 |

3A. Continuum of Care (CoC) Strategic Planning Objectives

Objective 3: Increase the percentage of participants in CoC-funded transitional housing that move into permanent housing to 65 percent or more.

Instructions:

The transitional housing objective is to help homeless individuals and families obtain permanent housing and self-sufficiency. Each SHP-TH project is expected to report the percentage of participants moving to permanent housing on its Annual Performance Report (APR). CoCs then use this data from all of the CoC-funded transitional lousing projects to report on the overall CoC performance on form 4C. Continuum of Care (CoC) Housing Performance.

In this section, CoCs are to describe short-term and long-term plans for increasing the percentage of transitional housing participants who move from SHP-TH projects into permanent housing to at least 65 percent or more. CoCs will indicate the current percentage of SHP-TH project participants moving into permanent housing as indicated on from 4C. as well as the expected percentage in 12 months, 5 years, and 10 years. CoCs that do not have any CoC funded transitional housing projects (SHP-TH) for which an APR was required should enter "0" in the numeric fields below and note in the narratives.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

What is the current percentage of participants in CoC-funded transitional housing projects will have moved to permanent housing? 65

In 12 months, what percentage of participants in CoC-funded transitional housing projects will have moved to permanent housing? 66

In 5 years, what percentage of participants in CoC-funded transitional housing projects will have moved to permanent housing? 75

In 10 years, what percentage of participants in CoC-funded transitional housing projects will have moved to permanent housing? 80

Describe the CoCs short-term (12 month) plan to increase the percentage of participants in CoC-funded transitional housing projects that move to permanent housing to 65 percent or more (limit 1000 characters).

| Exhibit 1 2011 | Page 320 | 10/27/2011 |

The CoC will exceed its current percentage (65%) of homeless persons moving from transitional housing to permanent housing by: 1) conducting an annual review and analysis of HUD APRs which will assess trends in transitioning homeless persons from transitional to permanent housing; 2) developing linkages between TH providers and affordable housing developers to build partnerships to transition homeless from transitional housing to permanent housing; and 3) requiring transitional housing providers receiving Urban County CDBG funding to participate in HMIS tracking of graduates.

Describe the CoCs long-term (10 year) plan to increase the percentage of participants in CoC-funded transitional housing projects that move to permanent housing to 65 percent or more (limit 1000 characters):

CoC will continue to implement the steps noted above. The CoC will also meet with low-performing agencies in order to identify causes for low placement rates. CoC will also meet with high-performing agencies in order to identify reasons for higher placement rates. CoC will share high-performing agency findings with lower performing agencies in order to help them improve placement outcomes for clients.

| Exhibit 1 2011 | Page 321 | 10/27/2011 |

3A. Continuum of Care (CoC) Strategic Planning Objectives

Objective 4: Increase percentage of participants in all CoC-funded projects that are employed at program exit to 20 percent or more.

Instructions:

Employment is a critical step for homeless persons to achieve greater self-sufficiency, which represents an important outcome that is reflected both in participants' lives and the health of the community. Each CoC-funded project (excluding HMIS dedicated only projects) is expected to report the percentage of participants employed at exit on its Annual Performance Report (APR). CoCs then use this data from all of its non-HMIS projects to report on the overall CoC performance on form 4D. Continuum of Care (CoC) Enrollment in Mainstream Programs and Employment Information.

In this section, CoCs are to describe short-term and long-term plans for increasing the percentage of all CoC-funded program participants that are employed at program exit to 20 percent or more. CoCs will indicate the current percentage of project participants that are employed at program exit, as reported on 4D, as well as the expected percentage in 12 months, 5 years, and 10 years. CoCs that do not have any CoC-funded non-HMIS dedicated projects (SHP-PH, SHP-TH, SHP-SH, SHP-SSO, or Sac TRA/SRA/PRA/SRO) for which an APR was required should enter "0" in the numeric fields below and note in the narratives.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

What is the current percentage of participants in all CoC-funded projects that are employed at program exit? 52

In 12 months, what percentage of participants in all CoC-funded projects will be employed at program exit? 52

In 5 years, what percentage of participants in all CoC-funded projects will be employed at program exit? 60

In 10 years, what percentage of participants in all CoC-funded projects will be employed at program exit? 62

Describe the CoCs short-term (12 month) plan to increase the percentage of participants in all CoC-funded projects that are employed at program exit to 20 percent or more (limit 1000 characters).

| Exhibit 1 2011 | Page 322 | 10/27/2011 |

CoC has surpassed the national average of 20% and will maintain or exceed its current percentage (52%) of persons employed at program exit by: 1) surveying existing employment and income linkages available to homeless and link CoC and non CoC shelter providers to existing services by supporting the development of collaboratives and partnerships (Local one-stops, social service programs, WIA, etc.); 2) using Mental Health Services Act (MHSA) funds to develop Workforce Education training programs for seriously mentally ill homeless; and 3) increasing the total number of homeless persons served at One-Stop Employment Centers by 5% through enhanced outreach and collaboration with partner agencies to successfully integrate population back into the labor force.

Describe the CoCs long-term (10 year) plan to increase the percentage of participants in all CoC-funded projects who are employed at program exit to 20 percent or more (limit to 1000 characters):

CoC will review the APR employment outcomes on a quarterly basis. CoC will meet with low-performing agencies in order to identify causes for low employment rates. CoC will also meet with high-performing agencies in order to identify reasons for higher employment rates. CoC will share high-performing agency findings with lower performing agencies in order to help them improve employment outcomes for clients.

| Exhibit 1 2011 | Page 323 | 10/27/2011 |

3A. Continuum of Care (CoC) Strategic Planning Objectives

Objective 5: Decrease the number of homeless households with children.

Instructions:

Ending homelessness among households with children, particularly for those households living on the streets or other places not meant for human habitation, is an important HUD priority. CoCs can accomplish this goal by creating new beds and/or providing additional supportive services for this population.

In this section, CoCs are to describe short-term and long-term plans for decreasing the number of homeless households with children, particularly those households that are living on the streets or other places not meant for human habitation. CoCs will indicate the current total number of households with children that was reported on their most recent point-in-time count. CoCs will also enter the total number of homeless households with children they expect to report on in the next 12 months, 5 years, and 10 years.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

What is the current total number of homeless households with children as reported on the most recent point-in-time count? 574

In 12 months, what will be the total number of homeless households with children? 550

In 5 years, what will be the total number of homeless households with children? 450

In 10 years, what will be the total number of homeless households with children? 350

Describe the CoCs short-term (12 month) plan to decrease the number of homeless households with children (limit 1000 characters):

The CoC will continue to work with community partners to fund the Redirection Program to intercept homeless households with children from the streets and divert them away from shelter to more appropriate permanent housing with supportive services. The CoC will also leverage HPRP funding to create a safety net to prevent families from becoming homeless and rapidly rehouse those that fall into homelessness.

Describe the CoCs long-term (10 year) plan to decrease the number of homeless households with children (limit 1000 characters):

| Exhibit 1 2011 | Page 324 | 10/27/2011 |

The CoC created the "Orange County Ten-Year Plan to End Homelessness." Action steps that have been taken to decrease the number of homeless households with children include: 1) providing prevention assistance such as anti-eviction services, rental and utility supports, credit counseling, debt management, tangible goods, emergency assistance, employment services, conflict resolution, and relationship building through regional access centers; 2) improving coordination among the various public assistance programs so that at-risk individuals and families can more effectively and efficiently access resources; and 3) establishing a pool of flexible funding that can be used for ¿whatever it takes¿ assistance for those who are at-risk of losing their current housing.

| Exhibit 1 2011 | Page 325 | 10/27/2011 |

3B. Continuum of Care (CoC) Discharge Planning

Instructions:

The McKinney-Vento Act requires that State and local governments have policies and protocols in place to ensure that persons being discharged from publicly-funded institutions or systems of care are not discharged immediately into homelessness. To the maximum extent practicable, Continuums of Care should demonstrate how they are coordinating with and/or assisting in State or local discharge planning efforts to ensure that discharged persons are not released directly to the streets, emergency homeless shelters, or other McKinney-Vento homeless assistance programs (SHP, S+C, SRO). For each system of care, CoCs are to address the following:

What: Describe the efforts that the CoC has taken to ensure that persons are not routinely discharged into homelessness. In the case of Foster Care, CoCs should specifically address the discharge of youth ageing out from the foster care system. If there is a State mandate that requires publicly funded institutions to ensure appropriate housing placement, that does not include homelessness, indicate this in the narrative.

Where: Indicate where persons routinely go upon discharge. Response should identify alternative housing options that are available for discharged persons other than the streets, emergency homeless shelters, and/or McKinney-Vento homeless assistance programs.

Who: Identify stakeholders and/or collaborating agencies that are responsible for ensuring that persons being discharged from system of care are not routinely discharged into homelessness.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

For each system of care identified below describe the CoC's efforts in coordinating with and/or assisting in the development of local discharge planning policies that ensure persons are not routinely discharged into homelessness, including the streets, emergency homeless shelters, or other McKinney-Vento homeless assistance housing programs. Review ALL instructions to ensure that each narrative is fully responsive (limit 1500 characters).

Foster Care (Youth Aging Out):

| Exhibit 1 2011 | Page 326 | 10/27/2011 |

Orange County Social Services Agency (SSA) has worked with public and private stakeholders to develop a plan to address the issue of emancipated youth. The goal of the discharge plan is to ensure youth are identified prior to emancipation and then linked to appropriate supportive services and permanent housing options. Orange County has been approved for an equivalent total of 69 State funded beds under the Transitional Housing Program-Plus (THP-PLUS) for emancipated youth aged 18-24 during Fiscal Year 10/11. Twenty-five THP-Plus beds in the Host Family component of THP-Plus are currently filled as are thirty THP-Plus beds in the Scattered-site Apartment component, and 14 beds in the Tustin Family Campus. Assembly Bill 12 will make extensive changes in the availability of THP-Plus Beds beginning January 1, 2012.

An eligibility list for each of the three components of the THP-Plus beds is in place to be able to fill any vacancies that occur with changes in life circumstances of the former foster youth participants, or as they age out of the program parameters.

This resource, along with the community-based emancipated foster youth beds and those available to the Guardian Scholar youth, will make a major impact on the number of homeless emancipated foster youth.

Health Care:

Orange County hospitals continue efforts to ensure that patients who are homeless have a clean, safe place to continue their recovery when they no longer need acute care. In January 2010, the Hospital Association of Southern California, its member hospitals, and the National Health Foundation (NHF), launched the OC Recuperative Care Program with the Illumination Foundation (IF) as the program¿s shelter provider. The centralized model provides hospitals with a single point of contact for referring patients into a recuperative care program that is managed by NHF. While in the recuperative care program, clients receive basic medical oversight through certified nursing assistants. IF¿s case managers also assist clients in finding permanent medical homes, connecting them to permanent housing using County HPRP funding, and providing other services leading to self-sufficiency. This program facilitated the development of discharge planning protocols for participating hospitals. Hospitals pay for the program exclusively, although as of July of this year, hospitals are eligible to be reimbursed a portion of their costs for the County's indigent care program (Medical Services Initiative) patients referred into recuperative care.

Mental Health:

| Exhibit 1 2011 | Page 327 | 10/27/2011 |

Orange County¿s mental health discharge planning protocol was devised by the OC Health Care Agency (OC-HCA). The policy requires that patients who have received psychiatric treatment authorized by OC-HCA, that are released from general acute care hospitals or acute psychiatric hospitals, be provided a written aftercare/discharge plan prior to their release. Per CA Health and Safety Code Section 1262 requirements our plan includes 1) the nature of the illness and follow-up required; 2) medications including side effects and dosage schedules; 3) referrals to providers of medical and mental health services; 4) financial needs; 5) educational/vocational needs; 6) social needs; and 7) housing needs. Housing options can include moving back to the family home, independent living, licensed residential care facilities, or skilled nursing facilities. Each inpatient psychiatric facility is assigned a liaison from the OC-HCA Adult Mental Health clinics to coordinate treatment after discharge. In collaboration with the CoC, OC-HCA has implemented the new Prop 63 Full Service Partnership Program. This has created new outreach options for the homeless to access services starting at the street outreach level and continuing until the individual and/or family is well established in permanent supportive housing. HCA reports that the CoC shelter community has benefited from the implementation of Prop 63, utilizing services to ensure that clients are appropriately housed and adequately served.

Corrections:

In 2007, an interagency team called the Orange County Reentry Partnership was formed that is addressing and creating new strategies and actions for long term housing and re-integration of inmates from local jails and state prisons. The team meets monthly with over 60 agencies participating in the planning effort. Agencies include Probation, State Corrections and Rehabilitation, OC Sheriff's Department, OC Community Services, OC Health Care Agency, OC Social Services Agency, St. Vincent de Paul, and several nonprofits and faith-based groups. These agencies work collaboratively to ensure each client receives the appropriate housing and services needed upon release from local jail facilities. Discharge plans are created within 3-4 weeks of a client¿s release and include direct linkage to services including basic needs and housing. Upon discharge, inmates have been able to obtain permanent housing in such places as group homes and sober living homes as well as living with family members and friends.

| Exhibit 1 2011 | Page 328 | 10/27/2011 |

3C. Continuum of Care (CoC) Coordination

Instructions:

A CoC should regularly assess its local homeless assistance system and identify gaps and unmet needs. CoCs can improve their communities through long-term strategic planning. CoCs are encouraged to establish specific goals and implement short-term action steps. Because of the complexity of existing homeless systems and the need to coordinate multiple funding sources and priorities, there are often multiple long-term strategic planning groups. It is imperative for CoCs to coordinate, as appropriate, with each of these existing strategic planning groups to meet local needs.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions¿ which can be accessed on the left-hand menu bar.

Does the Consolidated Plan for the jurisdiction(s) that make up the CoC include the CoC strategic plan goals for addressing homelessness?

Yes

If yes, list the goals in the CoC strategic plan that are included in the Consolidated Plan:

Goals include 1) addressing needs for homeless persons and families by identifying and filling gaps and eliminating barriers related to securing emergency, transitional and permanent supportive housing, and permanent affordable housing and supportive services that break the cycle of homelessness and increase self-sufficiency and stability. 2) increasing and preserving shelter and supportive services for at risk and homeless residents of Orange County including, but not limited to, victims of domestic violence and their children, the mentally ill and dually diagnosed, veterans, older adults, and other at-risk or homeless sub-populations in Orange County; 3) providing homeless prevention services to households at-risk of becoming homeless.

Describe how the CoC is participating in or coordinating with the local Homeless Prevention and Rapid re-housing Program (HPRP) initiative, as indicated in the substantial amendment to the Consolidated Plan 2008 Action Plan (1500 character limit):

| Exhibit 1 2011 | Page 329 | 10/27/2011 |

The County of Orange received $1,556,026 in HPRP funds and several cities received additional funding including Anaheim($2,046,908),Costa Mesa($560,237),Fullerton ($622,710),Garden Grove($1,068,707),Huntington Beach($566,611),Irvine($540,656), Orange($545,636),and Westminster($511,454)for a combined county and cities total of $10,850,934.In preparation of disbursing these funds, the CoC implemented the following coordinating activities: 1)provided leadership for the regional planning process and the marshaling of mainstream resources; 2)helped initiate efforts to encourage other HPRP recipients to distribute funds in a regionally coordinated manner in order to increase the impact of resources among those in need; and 3)a Regional Coordinating Committee was developed to collaborate with 10 jurisdictions in OC receiving HPRP funds.In addition,HPRP sub-grantees coordinate with the VA and Housing Authority to provide move in assistance to eligible veterans receiving VASH vouchers. The CoC also developed a central intake and referral partnership with 2-1-1 who provides linkages for assistance through HPRP funded agencies.

Describe how the CoC is participating in or coordinating with any of the following: Neighborhood Stabilization Program (NSP) initiative, HUD VASH, or other HUD managed American Reinvestment and Recovery Act programs (2500 character limit)?

The CoC is coordinating with OC Community Services(OCCS)concerning the NSP by 1) referring households to OCCS whose income does not exceed 50% of AMI for potential affordable housing(at least 25% of funds will be used for housing individuals and families whose incomes do not exceed 50 percent of area median income)and 2) accepting clients referred by OCCS who are at risk of losing their housing and not able to benefit from NSP.Funds targeting households at or below 50% AMI will provide an opportunity for CoC and participating cities to collaborate with OCCS to provide permanent supportive housing for homeless and/or special needs clients through purchase of foreclosed homes for use as rental properties.A portion of NSP funds received by the County were allocated to affordable rental housing projects for homeless populations.In addtion the NSP III allocation received by the County was specifically targeted towards permanent supportive housing in conjunction with services and emergency/transitional housing.

Indicate if the CoC has established policies that require homeless assistance providers to ensure all children are enrolled in school and connected to appropriate services within the community?   Yes

| Exhibit 1 2011 | Page 330 | 10/27/2011 |

If yes, please describe the established policies that are in currently in place. CoC established policies requires school districts to ensure homeless students have access to education and other services they need to meet the same high academic achievement standards as all students. All local school districts must designate a Homeless Liaison. The Homeless Liaisons must ensure that: Homeless children and youth are identified
Homeless students enroll in, and have full and equal opportunity to succeed in, the school districts Homeless families, children, and youth receive educational services.

Describe the CoC's efforts to collaborate with local education agencies to assist in the identification of homeless families and inform them of their eligibility for McKinney-Vento education services. (limit 1500 characters)

CoC collaborates with local education agencies(LEAs) through the HOPES Collaborative,a partnership between the County Department of Education and the County Homeless Coordinator,28 school districts,community organizations,law enforcement,and housing providers to remove enrollment barriers, increase school attendance,and improve the academic success of homeless children.HOPES fosters collaboration by providing coordination, technical support, and professional development opportunities for school districts through Homeless Liaisons. Regular meetings provide information and resources to liaisons.HOPES assists in the identification of homeless families including keeping an updated list of low-cost hotels and motels and trailer parks so that school registrars can recognize addresses that may indicate homelessness;examining transportation logs to find doubled-up families;helping teachers learn to listen for statements that may indicate a child is living in a homeless situation and look for changes in behavior associated with homelessness.HOPES also informs homeless families of eligibility for McKinney-Vento education services which includes ensuring that families are aware of educational rights through regular school mailings and handouts at the beginning of the school year. HOPES Collaborative continues to support and outreach to families living in motels and transitional living programs, by providing information on their educational rights and connecting them to local schools.

Describe how the CoC has, and will continue, to consider the educational needs of children when families are placed in emergency or transitional shelter. (limit 1500 characters)

| Exhibit 1 2011 | Page 331 | 10/27/2011 |

The CoC will continue to consider the educational needs of children when families are placed in emergency or transitional shelter by closely working with liaisons from local educational agencies (LEAs) to ensure that children have a full and equal opportunity to succeed in school. To help ensure success, LEAs with the support of the CoC will continue to disseminate a public notice of the educational rights of homeless children within the provisions of the McKinney-Vento Act to all CoC shelter operators.

LEAs and shelter staff will also continue to work together to inform the parents or guardians of homeless children of the educational rights, opportunities, and services available to their children. They will also be informed of the resources available to overcome barriers to education such as lack of transportation, delays in obtaining previous school records, lack of access to health services to meet immunization requirements, and lack of funds for school dress codes and school supplies.

LEAs and shelter staff will also work together to encourage the parents or guardians to work with them to help overcome any barriers to education. Such cooperation may include helping children complete their homework assignments, receive tutoring when necessary, obtaining referrals and keeping appointments for medical, optical, and other health care services.

Describe the CoC's current efforts to combat homelessness among veterans. Narrative should identify organizations that are currently serving this population, how this effort is consistent with CoC strategic plan goals, and how the CoC plans to address this issue in the future.(limit 1500 characters)

Organizations serving vets exclusively include the OC Veterans Service Office and Veterans First-Santa Ana. In addition, there are several CoC service members who serve vets among other subpopulations. CoCs current efforts toward combating homelessness among vets are consistent with its strategic plan goals that include PSH. Veterans First provides a 28-bed PSH program exclusively for vets. Other CoC PSH providers serve vets among other residents. The CoC wants to increase the percentage of vets moving from TH to PH. Veterans First has five TH programs with 60 beds that includes services to help residents move into PH. Other CoC TH providers serve vets among other residents.

CoC members are committed to increasing the percentage of vets that are employed at program exit. Members are committed to helping both employable and unemployable vets receive mainstream resources. The OC Veterans Service Office provides free benefit claims counseling and referrals to vets. Veteran's First provide case management, substance abuse and mental health counseling, and job assessment and training.

CoC plans to address this issue in the future include administering 300 VASH certificates and providing HPRP homeless prevention and rapid-rehousing assistance to vets. The Vet Connect Project will co-locate services that will include mental health, healthcare, housing, and employment services in order to help vets maximize resources to obtain and/or maintain housing.

| Exhibit 1 2011 | Page 332 | 10/27/2011 |

Describe the CoC's current efforts to address the youth homeless population. Narrative should identify organizations that are currently serving this population, how this effort is consistent with the CoC strategic plan goals, and the plans to continue to address this issue in the future (limit 1500 characters):

CoC goals include finding safe and secure housing for homeless youth whose lack of stable housing often result from violence in their family home, isolation from family and community members, substance abuse, health and mental health issues, pregnancy, prostitution, lack of educational opportunities and job skills, racism and homophobia. There are several residential programs that provide a range of housing opportunities with supportive services such as crisis intervention, drug abuse counseling, and case management that include:

1) Casa Youth Shelter, Emergency Youth Shelter;
2) Community Service Programs, Inc., Children¿s Residential Program; and
3) Mary¿s Shelter.

There are also several non-residential programs that provide a range of services for homeless youth that include:

1) Build Futures;
2) Project HOPE School; and
3) Stand Up for Kids.

The plans to continue to address this issue in the future include:

1) Education for Homeless Children and Youth (EHCY) Program Grant (formerly McKinney-Vento Homeless Education and Assistance Act);
2) Orange County Department of Education Homeless Outreach Promoting Educational Success (HOPES) Collaborative which is a partnership of Orange County Services Providers & 28 Orange County School Districts;
3) Orange County Department of Education - Alternative, Community, Correctional Education Schools and Services- ACCESS Division; and
4) Collaboration to Serve Anaheim Motel Families and/Education Subcommittee.

| Exhibit 1 2011 | Page 333 | 10/27/2011 |

3D. Hold Harmless Need (HHN) Reallocation

Instructions:

Continuum of Care (CoC) Hold Harmless Need (HHN) Reallocation is a process whereby an eligible CoC may reallocate funds in whole or in part from SHP renewal projects to create one or more new permanent housing projects and/or a new dedicated HMIS project. A CoC is eligible to use HHN Reallocation if its Final Pro Rata Need (FPRN) is based on its HHN amount or if it is a newly approved merged CoC that used the Hold Harmless Merger process during the FY2011 CoC Registration process.

The HHN Reallocation process allows eligible CoCs to fund new permanent housing or dedicated HMIS projects by transferring all or part of funds from existing SHP grants that are eligible for renewal in Fy2011 into a new project. New reallocated permanent housing projects may apply under SHP (one, two, or three years), S+C (five or ten years), and Section 8 Moderate Rehabilitation (ten years). New reallocated HMIS projects may be for one, two, or three years.

A CoC whose FPRN is based on its Preliminary Pro Rata Need (PPRN) is not eligible to reallocate existing projects through this process and should therefore always select "No" to the questions below.

 For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Does the CoC want to reallocate funds from one or more expiring SHP grant(s) into one or more new permanent housing or dedicated HMIS project(s)?   No

Is the CoCs Final Pro Rata Need (FPRN) based on either its Hold Harmless Need (HHN) amount or the Hold Harmless Merger process?   No

CoCs who are in PPRN status are not eligible to reallocate projects through the HHN reallocation process.

| Exhibit 1 2011 | Page 334 | 10/27/2011 |

4A. Continuum of Care (CoC) 2010 Achievements

Instructions:

In the FY2010 CoC application, CoCs were asked to propose numeric achievements for each of HUD's five national objectives related to ending chronic homelessness and moving individuals and families to permanent housing and self-sufficiency through employment. CoCs will report on their actual accomplishments since FY2010 versus the proposed accomplishments.

In the column labeled FY2010 Proposed Numeric Achievement enter the number of beds, percentage, or number of households that were entered in the FY2010 application for the applicable objective. In the column labeled Actual Numeric Achievement enter the actual number of beds, percentage, or number of households that the CoC reached to date for each objective.

 CoCs will also indicate if they submitted an Exhibit 1 in FY2010. If a CoC did not submit an Exhibit 1 in FY2010, enter "No" to the question. CoCs that did not fully meet the proposed numeric achievement for any of the objectives should indicate the reason in the narrative section.

 For additional instructions, refer to the 'Exhibit 1 Detailed Instructions' which can be accessed on the left-hand menu bar.

Objective	FY2010 Proposed Numeric Achievement:		Actual Numeric Achievement	
Create new permanent housing beds for the chronically homeless.	40	Beds	48	Beds
Increase the percentage of homeless persons staying in permanent housing over 6 months to at least 77%.	85	%	91	%
Increase the percentage of homeless persons moving from transitional housing to permanent housing to at least 65%.	68	%	65	%
Increase the percentage of homeless persons employed at exit to at least 20%	52	%	52	%
Decrease the number of homeless households with children.	351	Households	574	Households

| Exhibit 1 2011 | Page 335 | 10/27/2011 |

Did the CoC submit an Exhibit 1 application in FY2010?   Yes

If the CoC was unable to reach its FY2010 proposed numeric achievement for any of the national objectives, provide a detailed explanation (limit 1500 characters)

The CoC did not exceed last year's proposed numeric achievement of 68% for TH. This is primarily because a couple of agencies were low performing. The CoC is working with these agencies to improve their retention rates and also developing linkages between TH providers and PH providers to build partnerships to transition homeless from TH to PH. Also, the economic downturn has made it more difficult for households to transition to PH. It is taking longer for residents to find employment and too many become underemployed.

The number of homeless households with children increased by 223 households between 2009 and 2011. However, the number of unsheltered families decreased from 27 households in 2009 to only seven (7) households in 2011. The CoC believes that the number of sheltered families increased largely due to the availability of new funds for homeless families which was used to rapidly rehouse them. Such families were initially housed temporarily in motels/hotels through the Family Redirection Program as they awaited rapid re-housing. Without these funds, the CoC believes that these families would have remained hidden and as a result not included in the homeless count.

| Exhibit 1 2011 | Page 336 | 10/27/2011 |

4B. Continuum of Care (CoC) Chronic Homeless Progress

Instructions:

HUD tracks each CoCs progress toward ending chronic homelessness. In the FY2011 CoC NOFA, chronically homeless is defined as an unaccompanied homeless individual with a disabling condition, or a family with at least one adult member who has a disabling condition, who has either been continuously homeless for at least a year OR has had at least four episodes of homelessness in the last three (3) years.

 CoCs are to track changes from one year to the next in the number of chronically homeless persons as well as the number of beds available for this population. CoCs will complete this section using data reported for the FY2009, FY2010, and FY2011 (if applicable) point-in-time counts as well as the data collected and reported on the Housing Inventory Counts (HIC) for those same years. For each year, indicate the total unduplicated point-in-time count of chronically homeless as reported in that year. For FY2009 and FY2010, this number should match the number indicated on form 2J of the respective years Exhibit 1. For FY2011, this number should match the number entered on the Homeless Data Exchange (HDX).

Indicate the total number of chronically homeless persons and total number of permanent housing beds designated for the chronically homeless persons in the CoC for FY2009, FY2010, and FY2011.

Year	Number of CH Persons	Number of PH beds for the CH
2009	3,783	561
2010	3,783	487
2011	1,670	457

Indicate the number of new permanent housing beds in place and made available for occupancy for the chronically homeless between February 1, 2010 and January 31, 2011.   48

Identify the amount of funds from each funding source for the development and operations costs of the new permanent housing beds designated for the chronically homeless, that were created between February 1, 2010 and January 31, 2011.

Cost Type	HUD McKinney-Vento	Other Federal	State	Local	Private
Development					
Operations	$1,054,800		$843,840	$210,960	
Total	$1,054,800	$0	$843,840	$210,960	$0

| Exhibit 1 2011 | Page 337 | 10/27/2011 |

If the number of chronically homeless persons increased or if the number of permanent beds designated for the chronically homeless decreased, please explain (limit 750 characters):

The number of homeless beds did not decrease between 2010 and 2011. Fifty (50) of the 487 beds in the 2010 HIC were incorrectly recorded as beds for the chronically homeless. The correct number should have been 437. Also, 36 beds for chronically homeless vets were not recorded in the 2011 HIC. The CoC plans on submitting a revised HIC to HUD for approval.

| Exhibit 1 2011 | Page 338 | 10/27/2011 |

4C. Continuum of Care (CoC) Housing Performance

Instructions:

All CoC funded non-HMIS projects are required to submit an Annual Performance Report (APR), or Transition APR (TAPR) within 90 days of a given operating year. To demonstrate performance on participants remaining in permanent housing for more than six months, CoCs must use data on all permanent housing projects that should have submitted an APR, or TAPR, for the most recent operating year. Projects that did not submit an APR, or TAPR, on time must also be included in this calculation.

Complete the table using data entered for Question 12(a) and 12(b) for the most recent submitted APR, Q27 from the TAPR, for all permanent housing projects (SHP-PH, or Sac TRA/SRA/SRO/PRA) within the CoC that should have submitted one. Enter totals in fields a-e. The Total PH percent will auto-calculate by selecting "Save." The percentage is calculated as: c+d, divided by a+b, multiplied by 100. the last field, e., is excluded from the calculation.

CoCs that do not have SHP-PH or S+C projects for which and APR, or TAPR, was required should select "No" if the CoC did not have ANY CoC-funded permanent housing projects operating within their CoC that should have submitted an APR, or TAPR.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Does the CoC have any permanent housing projects (SHP-PH or S+C) for which an APR was required to be submitted?   Yes

Participants in Permanent Housing (PH)	
a. Number of participants who exited permanent housing project(s)	111
b. Number of participants who did not leave the project(s)	689
c. Number of participants who exited after staying 6 months or longer	103
d. Number of participants who did not exit after staying 6 months or longer	622
e. Number of participants who did not exit and were enrolled for less than 6 months	77
TOTAL PH (%)	91

Instructions:

| Exhibit 1 2011 | Page 339 | 10/27/2011 |

HUD will also assess CoC performance in moving participants in SHP transitional housing programs into permanent housing. To demonstrate performance, CoCs must use data on all transitional housing projects that should have submitted an APR, or TAPR, for the most recent operating year. Projects that did not submit an APR, or TAPR, on time must also be included in this calculation.

Complete the table below using cumulative data entered for Question 14 on the most recent submitted APR, Q29 on the TAPR, for all transitional housing projects (SHP-TH) within the CoC that should have submitted one. Once amounts have been entered into a. and b. selection "Save." The Total TH will auto-calculate. The percentage is auto-calculated as: b. divided by a, multiplied by 100. CoCs that do not have SHP-TH projects for which an APR was required should select "No" to the question below. This only applies to CoCs that do not have any CoC-funded transitional housing projects currently operating within their CoC that should have submitted an APR.

Does CoC have any transitional housing projects (SHP-TH) for which an APR was required to be submitted? Yes

Participants in Transitional Housing (TH)	
a. Number of participants who exited TH project(s), including unknown destination	730
b. Number of SHP transitional housing participants that moved to permanent housing upon exit	472
TOTAL TH (%)	65

| Exhibit 1 2011 | Page 340 | 10/27/2011 |

4D. Continuum of Care (CoC) Enrollment in Mainstream Programs and Employment Information

Instructions:

HUD will assess CoC performance in assisting program participants with accessing mainstream services to increase income and improve outcomes such as health, education, safety, and/or economic outcomes of homeless persons. To demonstrate performance, CoCs must use data on all non-HMIS projects (SHP-PH, SHP-SH, SHP-SSO, S+C TRA/SRA/PRA/SRO) that should have submitted an APR (either the HUD-40118 or the HUD APR in e-snaps) for the most recent operating year. Projects that did not submit an APR on time must also be included in this calculation.

Complete the table below using cumulative data entered for question 11 on the most recent submitted HUD-40118 APR or Q26 for the HUD APR in e-snaps for all non-HMIS projects within the CoC that should have submitted one. Each CoC shall first indicate the total number of exiting adults. Next, enter the total number of adults who exited CoC non-HMIS projects with each source of income. Once amounts have been entered, select "Save" and the percentages will auto-calculate. CoCs that do not have any non-HMIS projects for which an APR was required should select "No" to the question below. This only applies to CoCs that do not have any CoC-funded non-HMIS projects currently operating within their CoC that should have submitted an APR.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions¿ which can be accessed on the left-hand menu bar.

Total Number of Exiting Adults: 1,004

Mainstream Program	Number of Exiting Adults	Exit Percentage (Auto-calculated)	
SSI	85	8	%
SSDI	29	3	%
Social Security	40	4	%
General Public Assistance	77	8	%
TANF	212	21	%
SCHIP	4	0	%
Veterans Benefits	29	3	%
Employment Income	524	52	%
Unemployment Benefits	23	2	%
Veterans Health Care	23	2	%
Medicaid	250	25	%
Food Stamps	223	22	%
Other (Please specify below)	72	7	%
Child Support, Agency Subsidized Housing, Disability, Retirement Veteran's Pension, Motel			
No Financial Resources	153	15	%

| Exhibit 1 2011 | Page 341 | 10/27/2011 |

The percentage values will be calculated by the system when you click the "save" button.

Does the CoC have any non-HMIS projects for which an APR was required to be submitted?   Yes

| Exhibit 1 2011 | Page 342 | 10/27/2011 |

4E. Continuum of Care (CoC) Participation in Energy Star and Section 3 Employment Policy

Instructions:

HUD promotes energy-efficient housing. All McKinney-Vento funded projects are encouraged to purchase and use Energy Star labeled products. For information on the Energy Star Initiative go to: http://www.energystar.gov

A "Section 3 business concern" is one in which: 51% or more of the owners are Section 3 residents of the area of services; or at least 30% of its permanent full-time employees are currently Section 3 residents of the area of services; or within three years of their date of hire with the business concern were Section 3 residents; or evidence of a commitment to subcontract greater than 25% of the dollar award of all subcontracts to businesses that meet the qualifications in the above categories is provided. The Section 3 clause can be found at 24 CFR Part 135.

Has the CoC notified its members of the Energy Star Initiative?   Yes

Are any projects within the CoC requesting funds for housing rehabilitation or new construction?   Yes

| Exhibit 1 2011 | Page 343 | 10/27/2011 |

4E. Section 3 Employment Policy Detail

Is the project requesting $200,000 or more?: Yes

    If Yes to above question, click save to provide activities

    Which activities will the project undertake to ensure that employment and other economic opportunities are directed to low and very low income persons?
(Select all that apply)

Advertise at social service agencies, employment/training/community centers, local newspapers, shopping centers, radio, Establish a preference policy for Section 3 for competitive contracts >$100,000, Preference policy for hiring low and very low income persons residing in the service area

| Exhibit 1 2011 | Page 344 | 10/27/2011 |

4F. Continuum of Care (CoC) Enrollment and Participation in Mainstream Programs

It is fundamental that each CoC systematically help homeless persons to identify, apply for, and follow-up to receive benefits under SSI, SSDI, TANF, Medicaid, Food Stamps, SCHIP, WIA, and Veterans Health Care as well as any other State or Local program that may be applicable.

Does the CoC systematically analyze its projects APRs in order to improve access to mainstream programs? Yes

If 'Yes', describe the process and the frequency that it occurs.

Orange County CoC Leadership Cabinet and County Homeless Prevention Staff analyze APR data on an annual basis as part of the Continuum of Care application process or when notified by HUD that a program is having problems.

Does the CoC have an active planning committee that meets at least 3 times per year to improve CoC-wide participation in mainstream programs? Yes

If "Yes", indicate all meeting dates in the past 12 months.

The Homeless Shelter Provider Forum (HPF) meets once a month to share information and to network in order to build a strong collaborative system of care. Representatives from mainstream resources attend the meetings and conduct trainings that educate providers about linking clients to mainstream resources. Meeting dates in the last 12 months are as follows: November 4, 2010, December 2, 2010, January 6, 2011, February 3, 2011, March 3, 2011, April 7, 2011, May 5, 2011, June 2, 2011, July 7, 2011, August 4, 2011, and September 1, 2011.

Does the CoC coordinate with the State Interagency Council on Homelessness to reduce or remove barriers to accessing mainstream services? Not Applicable

Does the CoC and/or its providers have specialized staff whose primary responsibility is to identify, enroll, and follow-up with homeless persons on participation in mainstream programs? Yes

If yes, identify these staff members Provider Staff

Does the CoC systematically provide training on how to identify eligibility and program changes for mainstream programs to provider staff. Yes

| Exhibit 1 2011 | Page 345 | 10/27/2011 |

If "Yes", specify the frequency of the training.   Monthly or more

Does the CoC use HMIS as a way to screen for mainstream benefit eligibility?   No

If "Yes", indicate for which mainstream programs HMIS completes screening.

Has the CoC participated in SOAR training?   No

If "Yes", indicate training date(s).

| Exhibit 1 2011 | Page 346 | 10/27/2011 |

4G: Homeless Assistance Providers Enrollment and Participation in Mainstream Programs

Indicate the percentage of homeless assistance providers that are implementing the following activities:

Activity	Percentage
1. Case managers systematically assist clients in completing applications for mainstream benefits. **1a. Describe how service is generally provided:**	100%
Case managers are employed by the nonprofit service providers. Case managers conduct an initial intake to assess the client's need for mainstream resources and determine whether the client may be eligible to receive the services. Then, the case managers work to link the client to the appropriate resource.	

Activity	Percentage
2. Homeless assistance providers supply transportation assistance to clients to attend mainstream benefit appointments, employment training, or jobs.	80%

Activity	Percentage
3. Homeless assistance providers use a single application form for four or more mainstream programs: **3.a Indicate for which mainstream programs the form applies:**	50%
The form applies to the following mainstream programs: food stamps, General Relief, CalWorks, and Medi-Cal.	

Activity	Percentage
4. Homeless assistance providers have staff systematically follow-up to ensure mainstream benefits are received.	100%
4a. Describe the follow-up process:	
McKinney Vento funded homeless providers contact clients for up to 6 months post departure from programs through email, mail, and telephone. If the client needs services, they are referred to the appropriate agency or personally assisted by the case manager.	

| Exhibit 1 2011 | Page 347 | 10/27/2011 |

Continuum of Care (CoC) Project Listing

Instructions:

 IMPORTANT: Prior to starting the CoC Project Listing, CoCs should carefully review the "CoC Project Listing Instructions" and the "CoC Project Listing" training module, both of which are available at www.hudhre.info/esnaps.

 To upload all Exhibit 2 applications that have been submitted to this CoC, click on the "Update List" button. This process will take longer based upon the number of projects that need to be located. The CoC can either work on other parts of Exhibit 1 or it can log out of e-snaps and come back later to view the updated list. To review a project, click on the next to each project to view project details.
