

Construction Alert

WILLIAM R. MASON REGIONAL PARK ENTRY DRIVEWAY AND ROADWAY IMPROVEMENTS

OC Parks in collaboration with OC Public Works will enhance the park visitor experience by improving the entryway, providing an accessible path of travel into the park and fixing drainage issues. Work consists of removal of existing deteriorated asphalt pavement and replacement with a combination of regular and permeable asphalt to alleviate drainage issues while improving the quality of stormwater runoff; removal and replacement of the damaged curb and gutter and the addition of Americans with Disabilities Act-compliant curb ramps; removal and replacement of landscape and irrigation within the roundabout and medians to include drought-tolerant and low-water-consumption plants; addition of lighting to the roundabout; addition of a raised crosswalk and wayfinding signs; pavement striping that enhance the bike trail crossing and assist vehicular traffic more efficiently and safely navigate the entrance. The park entrance will remain open at all times during construction; however, partial lane closures, sidewalk and exit detours will be required. Traffic control measures, such as construction signage and detour signs will be present.

i WHAT

Work consists of entry driveway and roadway enhancements and providing ADA compliant path of travel into the park and fixing drainage issues.
