

## **SR-133 Improvement Project**

- Introduction
- Project background
- Environmental Compliance during Construction
- Construction Schedule and Milestones

## **Background – The 4 Components**

- Drainage improvements
- Safety improvements
- Visual improvements
- Bike lanes

 Safety improvements

Visual improvements

**Existing Conditions** 

**Proposed Conditions** 

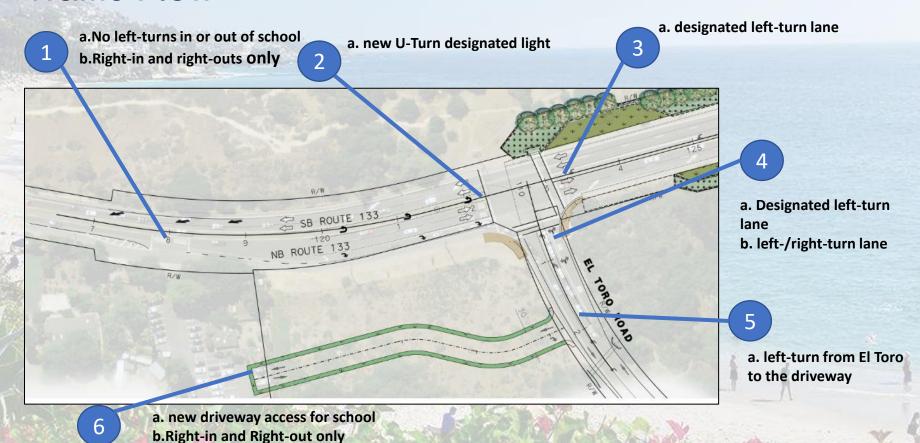

Bike lanes

#### Traffic Flow

## **Environmental Requirements**

## **Environmental Commitment Record (ECR)**

Measures from Environmental Document Phase

- Biological
- Cultural
- Paleontological
- Visual
- Noise
- Air Quality
- Human Environment
- Etc.

#### **Permit Requirements**

- 401 Permit (Water Board)
- 404 Permit (Army Corps)
- 1602 Permit (CDFW)
- Costal Development Permit (CDP) – City of Laguna Beach

# **Environmental Compliance During Construction**

- Internal documentation and reporting structure
  - Contractor implementation
  - Inspector verification
  - Biological and cultural monitors verification
- Quarterly ECR Compliance Reports

## **Biological Environment**

- Off-site mitigation for Riparian/Riverine Habitat
  - Temporary Impacts Mitigated 1:1
  - Permanent Impacts Mitigated 3:1 (off-site)
- Oak Tree Protection
  - Retained trees monitored during construction
  - Tree Dripline Protection
  - Coast Live Oaks mitigated 1:1; Heritage Oak Trees 3:1
- Environmentally sensitive area (ESA) fencing
- Preconstruction surveys for sensitive species, nesting birds, etc.
- Biological construction monitoring
- Night construction lighting

#### **Construction Schedule and Milestones**
